

THE INDUSTRIES MOST ECONOMICAL SYSTEM FOR THE COMMERCIAL FLEET

BENECOR® LITE DUTY-SERIES DEF DISPENSING & STORAGE SYSTEMS

BENECOR® LITE DUTY-SERIES DEF DISPENSING & STORAGE SYSTEMS DELIVER PROVEN PERFORMANCE AND ECONOMICAL VALUE FOR INDOOR & OUTDOOR DEF DISPENSING & STORAGE

ECONOMICAL SOLUTIONS FOR THE FLEET CUSTOMER

Our systems are purpose-built to deliver a rugged, cost-effective solution for DEF storage and dispensing across fleet environment. Engineered with economy in mind, they provide reliable performance in all conditions. Because DEF freezes at 12°F (-11°C), we offer an optional Cold-Weather package designed to protect systems integrity and ensure dependable operation in the hardest cold weather conditions.

ISLAND-FRIENDLY

Our 400 & 600 gallon Lite Duty-Series DEF Dispensing and Storage systems are designed to fit on a standard 4' fueling island.

TURNKEY – NOTHING IS FASTER OR EASIER

Our simple turnkey installation BENECOR® PLUG & PUMP design that will have you dispensing DEF fast. Just place the system to your pre-determined site, hook-up electricity, fill with the DEF and start pumping.

RELIABLE & COST EFFECTIVE

Our double-wall HDPE rotationally molded units are designed for dependable operation and easy serviceability, while minimizing upfront investing and total cost of ownership. Paired with proven BENECOR Systems components, Lite Duty-Series DEF Dispensing & Storage Systems deliver consistent performance and strong value—making them a smart, budget-driven choice for fleet customers.

APPLICATION FLEXIBILITY

The Lite Duty-Series DEF Dispensing & Storage Systems are available in multiple tank capacities to meet varying fleet requirements. Optional cold-weather packages ensure reliable operation in low temperatures, while AC and DC power configurations provide compatibility with electrical infrastructure or “field” installations. Customizable options allow fleets to optimize performance, efficiency, and total cost of ownership.

STANDARDS / APPROVALS

General Construction Approval Z-40321-510

Systems meet the ISO 22241-3 & 4 standards for the dispensing and storage of DEF.

LIQUID LEVEL GAUGE

BENECOR® AUTO SHUT-OFF NOZZLE

LOCKABLE LID

OPTIONAL PULSE METER

INTEGRATED 25' HOSE REEL & HOSE

INTEGRATED FORK POCKETS 400G & 660G
