BENECOR® RETAIL UNIT WITH WAYNE SELECT S1 DISPENSER

BENECOR® DEF DELIVERS THE ULTIMATE
IN PROVEN DEPENDABLE OUTDOOR DEF
DISPENSING & STORAGE SOLUTIONS

ENGINEERED FOR YOUR ENVIRONMENT

An original BENECOR® design, we specifically engineered our rugged system to withstand the challenging environment of the Retail customer and fully test each unit to help ensure years of trouble-free use. Because DEF freezes at 12°F (-11°C), we offer a unique Cold Weather package designed to withstand even the harshest cold weather conditions many customers experience.

ISLAND-FRIENDLY

Our DEF Standard Duty 500, 750, 1000 & 1500 Gallon Dispensing & Storage Systems are designed to fit on a standard Fueling Island.

TURNKEY — NOTHING IS FASTER OR EASIER

Because our system is fully tested & pre-calibrated with DEF before shipment, our turnkey installation is a simple "BENECOR® PLUG & PUMP" design that will have you dispensing DEF fast. Just secure the system to your predetermined site, hook-up electricity, fill with DEF & Start Pumping.

STANDARDS / APPROVALS

All BENECOR® DEF Standard Duty Systems meet the ISO 22241-3 & 4 standards for the dispensing and storage of DEF.

WAYNE SELECT S1 RETAIL FEATURES

EMV Secure Payment

PCI-Compliant / EMV-ready payment option includes a hybrid chip card reader and EPP with EMV certification and PCI compliance.

High-Speed Communication (Optional)

Achieve the industry's highest speed, long-range wireless forecourt communication. Safe and secure with advanced 256-bit encryption and cryptography protection.

7" Touchscreen Interface

Easy to use touchscreen interface for frictionless transaction flows, enhanced user experience, product/service ordering, and customization.

Ballistic Glass

Proprietary glass engineered for all touch, instrumentation, and security spaces to withstand abusive impacts, and up to 1,000 pounds of direct force

High-Bright Display

1,000 nits high-bright display ensures maximum daylight readability in direct sunlight, automatically adjusts by time of day and ambient condition.

Approved for Global Use

The iX Pay® secure payment platform has consistently been the first to meet the industry's most stringent regulatory demands around the world to help deliver the highest level of payment security available.

Advanced Security Made Simple

The iX Pay® secure payment platform provides sophisticated technology to protect consumers' financial data and PINs throughout the pay-at-the pump transaction process.
