Scope and Purpose: To ensure that all problems, disagreements, and disputes regarding assessment or training are resolved promptly and fairly through a structured appeals process.

1. Introduction

- 1.1 Close Protection Academy provides a high-quality training solution. However, we recognise that problems, disagreements, and disputes can occur.
- 1.2 All learners will be made aware of the Close Protection Academy appeals procedure at the start of their course or qualification.

2. Informal Resolution

- 2.1 Before formally submitting an appeal, learners are encouraged to first seek an informal resolution by discussing the issue directly with the relevant instructor, trainer, or staff member involved.
- 2.2 In many cases, concerns can be resolved through open communication and clarification. Learners must do this within 5 working days of course completion.
- 2.3 If the issue remains unresolved after informal discussions, the learner can proceed with a formal appeal.

3. Formal Resolution - Escalation to Centre Manager

- 3.1 If the matter cannot be resolved with the instructor, the learner may escalate the appeal to the Centre Manager.
- 3.2 The appeal must be submitted in writing within 10 working days of course completion.
- 3.3 The submission should include the learner's full name, course details, contact information, a description of the issue, a summary of informal discussions, and any supporting evidence.
- 3.4 The Centre Manager will review the appeal and may meet with the learner or gather additional information from relevant parties.
- 3.5 A response will be provided to the learner within 14 working days, detailing the decision.

4. Escalation to Internal Quality Assessor (IQA)

- 4.1 The learner must submit the appeal in writing to the IQA within 10 working days of receiving the Centre Manager's response.
- 4.2 The appeal should include a clear explanation of why the learner believes the decision was unfair, along with all prior communications and evidence.
- 4.3 The IQA will review the case impartially to ensure all academy policies were followed correctly.
- 4.4 The IQA will provide a written response to the learner within 14 working days.

5. Escalation to Highfield (HABC)/Qualsafe Awards

- 5.1 In the event that the learner is still dissatisfied with the decision from the Internal Quality Assurer (IQA), they can appeal to Highfield (HABC)/Qualsafe Awards.

Recognition of Prior Learning (RPL) Policy

Policy Date: 01.12.2025

Scope and Purpose: To enable learners to avoid the duplication of learning and assessment by recognising previously acquired knowledge, understanding, or skills. This policy provides a framework for credit transfer and the validation of non-certificated achievements against the Regulated Qualifications Framework (RQF).

1. Introduction and Audience

1.1 RPL is an assessment method that considers whether a learner meets unit requirements through existing competencies without undertaking a full course.

1.2 The academy provides two pathways: Credit Transfer (recognising previously accredited achievement) and Assessment/Validation of non-certificated learning.

1.3 This policy applies to all RQF qualifications and approved Units of Assessment offered by the academy.

1.4 The intended audience includes Highfield (HABC)/Qualsafe Awards EQAs, Internal Quality Assurers (IQAs), Assessors, and academy staff.

2. Policy and Methods of Recognition

2.1 Learners must produce valid and reliable evidence to claim RPL against whole units or several units; part-units cannot be awarded.

2.2 Option 1 - Assessment Only: Learners may undertake formal assessments without attending teaching sessions if they can demonstrate prior mastery.

2.3 Option 2 - Portfolio Submission: Learners may submit a portfolio of evidence cross-referenced to learning outcomes, where accepted by Highfield (HABC)/Qualsafe Awards.

2.4 There may be limits on the proportion of a qualification achieved via RPL; learners should consult specific qualification rules of combination.

2.5 Appropriately trained academy staff will provide specialist advice, but the learner remains responsible for mapping their evidence to the required criteria.

3. Principles of RPL

3.1 Validity: RPL is a valid method for claiming RQF credit regardless of how the learning took place.

3.2 Rigour and Transparency: Processes must be reliable, fair, and comply with all Highfield (HABC)/Qualsafe Awards regulatory requirements.

3.3 Learner-Centred: The process is voluntary, and learners must receive guidance on the nature and range of evidence required.

3.4 Quality Assurance: RPL is subject to the same IQA and EQA monitoring processes as any other form of assessment.

3.5 Fit for Purpose: Assessment methods must be of equal rigour to formal methods; if a unit requires an external exam, the learner must pass that exam.

4. Evidence Requirements (VARCS)

4.1 All evidence submitted for RPL must adhere to the VARCS principles: Valid, Authentic, Reliable, Current, and Sufficient.

4.2 Evidence can include work experience records, past portfolios, reports validated as the learner's own work, or professional discussions.

4.3 For Highfield (HABC)/Qualsafe Awards qualifications, centres must ensure the RPL process is conducted by a person with relevant expertise in the subject area.

5. Contact Information 5.1 For all correspondence regarding RPL applications or evidence mapping, please use the email contact@closeprotectionacademy.co.uk.

5.2 The telephone number for Close Protection Academy is 0800 6226526.

- 1.3 The ultimate goal is to promote continuous improvement in teaching standards and ensure the best possible outcomes for our learners.

2. Risk Rating Framework

- 2.1 Risk ratings are assigned to each tutor/assessor based on experience, qualifications, performance history, course complexity, and student feedback.

- 2.3 Medium Risk (2): Moderately experienced tutor/assessor with identified areas for improvement.
- 2.4 High Risk (3): Inexperienced or underperforming tutor/assessor, or one with multiple areas for development.

3. Sampling Frequency and Methods

- 3.1 Low Risk (1): Sampling occurs every 3rd course or 33% of portfolios. Methods include paper reviews and a periodic observation at least once per year.
- 3.2 Medium Risk (2): Sampling occurs every course or 100% of portfolios for one full cycle (1 month). Methods include comprehensive paperwork reviews and one observation per term.
- 3.3 High Risk (3): Sampling occurs for every course (100%). Methods include full paperwork reviews, direct observations during each delivery, and mandatory learner feedback collection.

4. Documentation and Reporting

- 4.1 All findings from the sampling process will be documented clearly, highlighting strengths and specific areas for improvement.
- 4.2 A report summarising the results will be shared with the tutor/assessor, providing constructive feedback and recommendations for professional development.
- 4.3 All IQA records must be made available on request to Highfield (HABC)/Qualsafe Awards EQAs.

5. Review and Adjustment of Risk Ratings

- 5.1 Risk ratings are reviewed on an annual basis or upon significant changes in performance or qualifications.
