

HORIZONTAL ACTING FIRE SHUTTER SYSTEMS

Auto-Set® H200 Series

Horizontal Fire Shutter

The automatic closing H200 Series horizontal fire shutters prevent the migration of heat, smoke or hot/toxic gases by creating vertical compartments thereby separating the vertical spaces from one another. Horizontal fire shutters reduce construction costs. Smoke evacuation systems can become unnecessary and one horizontal fire shutter can be used in lieu of numerous conventional fire barriers on multiple floors.

Product Features

Ratings

2-hour rated UL 10B*

Smoke & Draft labeled UL 1784

*Listed under the Canadian equivalent CAN/ULC S104

Code Compliance

CCRR-1086

Operation

Auto-Set® automatic resetting

Fail-Safe Design - automatic self-closing mechanism does not require power operation to self-close

Function

Interior and exterior applications

Coiling on the horizontal plane

Size

Widths to 30' and lengths to 90' (180' bi-parting); for larger sizes and custom configurations consult the factory

Finishes

McKEON Sterling Gray

Powder Coat of any color as selected

Stainless Steel – No. 4 Polish or

No. 8 Mirror

This technology is the subject of US Patent No. 9,267,326.
