

A modern office interior with a high ceiling made of light-colored wooden beams. Large windows in the background offer a view of greenery outside. In the foreground, several black office chairs are arranged on a light-colored wooden floor. A semi-transparent dark grey box containing text is overlaid on the center of the image.

Concept +

The **ASP Access Floors Series Concept +** leads the market by offering a unique access flooring solution that harbours design innovation and flexibility. The only limit is your imagination.

The Concept + series offers access floor panels that are pre-finished in your choice of surface finish to ensure that your design maintains functional accessibility to the services in the underfloor space such as power, data, fire and hydraulics.

Concept + offers the best of both worlds with design freedom and the practicality of access flooring combined.

The Concept + Colour Hub is a great starting point to choosing the best finish for your design. However, if you are looking for something different, we are happy to work with you to design a specifically designed finish for your project.

CONCEPT + Terrazzo

ASP Access Floors pre-finished Terrazzo Panels in the **Concept + Series** offers the flexibility to create stunning design solutions. Beautiful, durable and easy to maintain, these panels epitomize the luxury of terrazzo floors as used worldwide throughout history.

Opulent slabs of 20mm terrazzo are pre-finished onto a 600x600mm access floor panel, ensuring that your design maintains functional accessibility to the services in the underfloor space such as power, data, fire and hydraulics.

The Terrazzo Colour Hub is a great starting point to choosing the best finish for your design. However, if you are looking for something different, we are happy to work with you to design a specifically designed mix for your project.

Stylish yet practical

Robust yet exuberant

Cost-effective

Due to lifespan, durability and maintenance

Endless possibilities

With our custom project designs

Easy to maintain

With regular sweeping, damp mopping and the occasional machine cleaning

Mould free, healthy environment

Due to its non-porous surface

Outstanding durability

Even in high traffic areas

Long life span

Recycled content

Aggregates are a source of recycled content

Low VOC material

LEED Credits

Green Star Credits
