

## GLOBAL MEDICAL DEVICE CO.

This project focused on creating a warm, approachable, and timeless workplace interior. The goal was to enhance the aesthetic while ensuring effective sound control.

We installed operable glass partitions with acoustic sound absorption, finished in Sherwin Williams White Powder Coat. The Modernfold Acousti-Clear System with Pivot Panel Closure was chosen for its superior sound control and flexibility. The seamless integration of these elements resulted in a visually appealing and highly functional workspace, perfectly blending modern design with practical functionality.
