All RAL powder coat finishes provided using Sherwin Williams Powdura Super Durable TGIC Free Polyesters in Gloss (80'-85') and Satin (30') sheen. RAL finishes are RAL "Classic" colors from the Solids collection. RAL "Classic" colors from the Pearl and Metallic collections are not available. POWDURA® RAL Series Super Durable TGIC FREE Polyester Powder Coatings are recommended for a broad range of interior/exterior decorative applications. They are formulated for outstanding weatherability compared to standard polyester powder coatings, and the products on this card are designed to meet the requirements of American Architectural Manufacturers Associations (AAMA) 2603-02 standards. TGIC Free formulations from The Sherwin-Williams Company also provide outstanding transfer efficiency when compared to that of standard TGIC formulas. The colors represented on this fan deck can also be made in various other product qualities including Powdura® Urethane, Epoxy, and Hybrid chemistries. Additionally, liquid coating systems such as Polane® Polyurethane systems, Kem Aqua® Waterborne systems, and Permaclad® Polyester systems are also available in RAL colors.
