

Class III Limestone

Obsidian Ridge

Available Finishes

Brushed

Bush Hammered

Honed

Machine Sandblasted

Polished

Description

Features a deeper greige tone than its lighter counterpart with natural marbling and variation that add richness and dimension. Known for its strength and classic appeal, this high-density stone pairs beautifully with other substrates, making it a standout option for both traditional and contemporary architectural designs.

Physical Test Results

Absorption by Weight	0.50%
Compressive Strength	17,255 PSI
Modulus of Rupture	1,843 PSI
Flexural Strength	1,729 PSI
Density	168 lb/ft ³

Applications

Residential	Commerical
Interior	Exterior
Horizontal	Vertical
