

To the patients of Southeastern Cardiology Consultants,

The office is not currently closed. There are providers in the office to take care of any urgent cardiac issues, as well as staff to answer phone calls and any questions you have regarding medical records. The office can be contacted at **334-613-0807**.

With call volume being high, if you are unable to reach a staff member, please leave a detailed voicemail and contact number and someone will return your call as soon as possible.

If it is an emergency, please call 911 or go to the closest emergency room.

There has been misinformation put out to the public by unauthorized individuals regarding who to contact with questions and requests. All phone calls regarding your care and medical records are to be directed to Southeastern Cardiology Consultants only at the number above.

Our office will be reaching out very soon to all patients to provide information with disposition and follow-up care.

Thank you for your patience and cooperation during this transition.
