

Smarter benefits access starts with a Digital ID

Moving forward with digital access

Effective Jan 1, 2026, Delta Dental of Washington is moving to all digital IDs.

We're modernizing how benefits work—making access to care faster and easier, without the wait. Printed ID cards are no longer automatically mailed, because the digital version does it all—and more.

Your employees no longer need to worry about carrying or misplacing a printed dental ID card. With Delta Dental of Washington, accessing your member ID is easier than ever—right from the palm of your employees' hands.

What is a digital ID?

It's the same ID card your employees have always used—just available anytime, anywhere through their smartphone or computer. It includes all the information their dental provider needs.

How employees can access their digital ID:

1. Log in to their MySmile® member portal at DeltaDentalWA.com.
2. Their Digital ID is easy to find on the dashboard.
3. They can save a screenshot to their phone, download and print it if they prefer, or simply show their screen to their provider.

Why Your Employees Will Love It:

- Instantly available whenever they need it
- No more digging through wallets or glove boxes
- Easy to share with dental offices ahead of appointments
- Always up to date with current plan info

Please share with your employees that ID cards are now digital.

Member tools available through the MySmile® member portal:

- Digital ID
- Benefits info
- Claims status
- Find a Dentist tool
- Virtual dental care
- TotalHealth Wellness program
- Discount program
- And more!
