- Basement excavation
- Light Duty Concrete
- Heavy duty concrete loading dock
- Pavement
- Asphalt Carparks
- Armco Railing
- Line marking

# Municipality + Government Civil Works

Quarrell Civil Construction offers a variety of civil construction capabilities. Our scope of work includes demolition, earthworks, drainage, sewer and water installation, toilet block and oval construction, concrete walkways, landscaping, seeding, and car park and pavement construction. We also provide custom-made pits and work with local authorities to minimise disruption during construction. We have the ability to manage complex projects with unique requirements.

List of capabilities:

- Roads
- Inground infrastructure
- Sporting ovals
- Street Scapes
- Parks and Gardens

## PROJECT HIGHLIGHTS

### Echuca East Stage 1,2,3 Redevelopment

#### Campaspe Shire

Quarrell Civil Construction were awarded the Stage 1 Civil component for Intrec Builders in 2021, the first stage consisted of Multiuser Pavilion, new playground ground and small sporting oval. Stage 2-3 were awarded to Quarrell Civil Construction as the Principal Contractor in late 2021 and were completed in late 2023, these works involved dog park, greenspace space for recreational use, landscaping areas, walking paths, toilet block and storage shed for council use. This brand-new facility brought much needed space

and area for local to bring their dogs and children to play in the one area, a space that has brought much joy to the local community.

#### Project Included the below scope

- Demolition
- Bulk Earthworks
- Drainage
- Sewer
- Water
- Toilet block construction

#### Oval construction

- Concrete walking paths
- Landscaping
- Seeding
- Carparking

### Sturt Street Drainage

#### Campaspe Shire

This project was awarded in 2021, the area of awarded has been problematic for many years with severe drainage issues in the area, the drainage upgrade ran from the outfall of the Murray River over Anstruther Street and up to Pakenham Street, this included twin 1050mm Pipes and custom-made pits to allow for the demand of the high flows of water during a large rain event. Quarrell Civil Construction had

to work closely with the local police station and residents during the construction phase to ensure disruption to access and critical services was minimal.

#### Project Included the below scope

- Demolition of existing road
- Upgrade new drainage in ground infrastructure
- Upgrade open swale drains in environmentally sensitive areas
- Pavement construction
- Asphalt works
- Line marking

2,473 lineal meters of construction, 16,100m<sup>3</sup> material moved for construction including ditch and cart track. Laser bucket, Scraper and road Grader used throughout the construction process.

### Bunbartha 105 Acre Full Farm Layout

Quarrell Civil Construction work closely with the client to develop design that was best suited to the lay of the land.

Project consisted of a full farm layout, including on farm water storage, channel pad, laneways, Bulk Earthworks and Topsoiling. Project included supply and Installation diesel pump, Padman stops and crossings.

# Cartage

Quarrell Civil Construction is the complete bulk haulage contractor for quarry, sand, and agricultural products. We serve Victoria and southern NSW, offering both pure cartage services and full-service supply and delivery.

With a modern fleet of Kenworth trucks, our service and reliability are unmatched. We are your one-stop contractor for comprehensive bulk haulage in quarry and spoil removal throughout the Goulburn Valley. Providing bulk supply and delivery of quarry and sand materials to Quarrell Civil Construction projects, our fleet transported over 70,000 tonnes of material last year. Additionally, we deliver sand materials to Boral Concrete Plants and supply and deliver concrete aggregates to Boral Concrete Plants from TCM. With our expanding fleet, our capacity to move bulk products will continue to grow.

List of capabilities:

- Quarry supply
- Crushed rock
- Aggregates
- Gravel
- Sand
- Certified pavement materials
- Civil construction materials
- Agriculture materials for lanes and irrigation

# Projects

Quarrell Civil Construction is proud to have delivered a wide range of projects across the region that contribute to not only our clients goal, but the development of the region that we are lucky to call home.

Echuca Woolworths Shopping Centre and Murray Valley Highway Upgrade

**Circon Builders**

Quarrell Civil Construction secured the civil contract in early 2022 and completed the work by December, revitalising the rapidly growing west side of Echuca.

Echuca Aldi Carpark Upgrade

**Intrec Builders**

Aldi Echuca had been operating for years on limited carparking space, this upgrade provided much needed carparking space for the community.

Shepparton Spotlight Shopping Centre Redevelopment

**Hansen Yuncken**

Commercial project located on Benalla Road Shepparton; this project brought together much needed speciality shops to provide the one location for local shoppers.

Goulburn Valley Base Hospital

**Lend Lease**

Civil works were involved in the new 4 storey building, Emergency Department and Dialyses building providing much needed care to local patients.

Echuca East Stages 1,2,3 - Community Redevelopment

**Campaspe Shire**

Quarrell Civil Construction delivered a multi-stage community project including a playground, dog park, and recreational facilities.

Echuca Riverfront Upgrade

**Campaspe Shire**

Echuca Riverfront, rich in history and heritage, received a much-needed facelift after years of flood damage. Now, it stands as Echuca's top tourism destination, accessible by boat or road, offering something for everyone, day or night.

All Saints School - Shepparton

**Hansen Yuncken**

The All-Saints School was much needed addition to the education department in the Shepparton Region, the school will offer learning for prep to Year 7 and will be expanding to Prep to Year 12 by 2029.

Cobram Coles Shopping Centre

**H.Troon**

The new Coles development in Cobram, a tourist town on the Murray River, offers convenient shopping for both locals and visitors.

# Our Fleet

**Unmatched Equipment.  
Uncompromising Performance.**

# Values

At Quarrell Civil Construction, collaboration is the cornerstone of a safer workplace. We share knowledge, ideas, and a relentless pursuit of excellence. We actively listen to your needs, then deliver unshakeable results on every excavation project. It's a commitment woven into everything we do, because anything less is simply unacceptable.

# Safety

# Quality

# Service

# Safety + Systems

## INTEGRATED MANAGEMENT SYSTEMS – COMMITTED TO SYSTEM QUALITY

Quarrell Civil Construction operates an Integrated Management System to ensure all legislated and regulated compliance requirements for health and safety, quality and environment are met and exceeded.

This Integrated Management System ensures the operation of Quarrell Civil Construction is regularly reviewed and continuously improved to meet changing regulatory requirements as well as client requirements and expectations.

This also allows us to stay abreast of developments in technology and advances within the earthmoving and civil construction industry and industry in general.

The Integrated Management System has been developed to meet requirements of the following Standards:

**ISO 9001:2015**  
Quality Management Systems – Requirements

**ISO 14001:2015**  
Environmental Management Systems

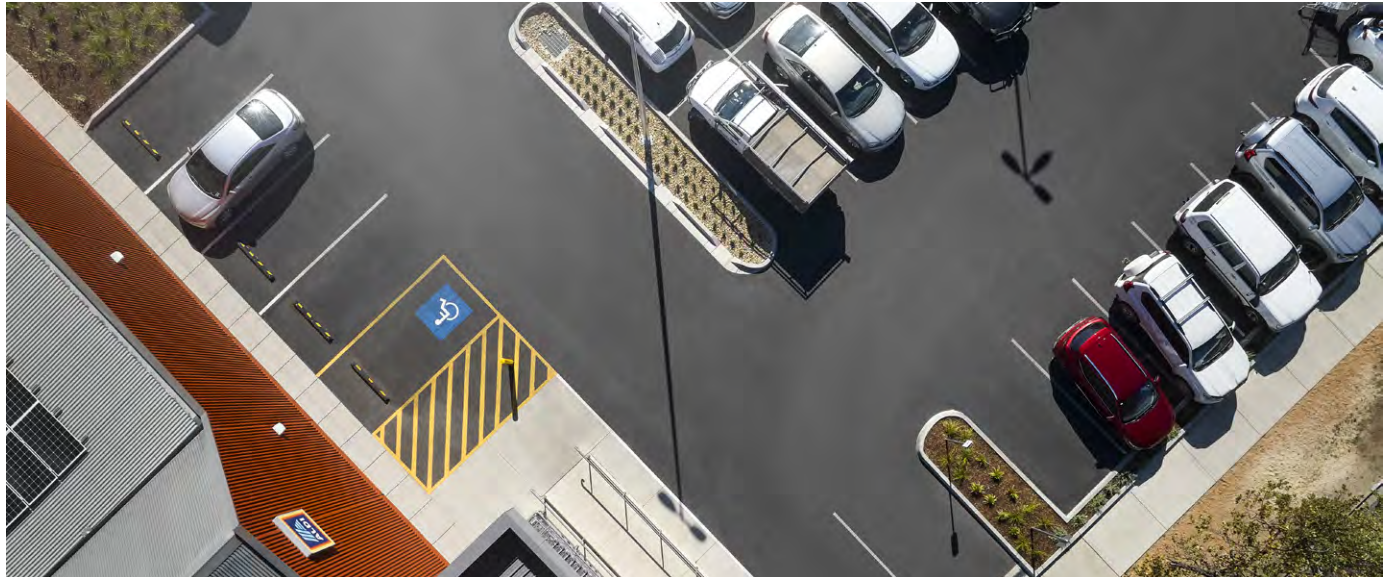

**AS/NZS 4801:2001**  
Occupational Health and Safety Management Systems

# Accreditation and Licences

CCF members lead the charge in crafting and upholding Australia's vital infrastructure network, spanning across roads, bridges, pipelines, drainage systems, ports, and utilities.

## CCF MEMBERSHIP

Quarrell Civil Construction is a member of the Civil Contractors Federation, the peak body representing Australia's civil construction industry, supporting members' businesses and providing a unified voice to all levels of government. The CCF has branches in all states and territories and has around 2000 Contractor and Associate members nationally.

CCF members are responsible for the construction and maintenance of Australia's infrastructure, including roads, bridges, pipelines, drainage, ports and utilities. Members also play a vital role in the residential and commercial construction industry by providing

earthmoving and land development services including the provision of power, water, communications and gas. The CCF is committed to furthering the interests of the civil construction industry.

We offer effective business tools and management systems, as well as practical advice in areas such as taxation, industrial relations, workplace health and safety, human resources and environmental compliance. Through strong advocacy we influence government policy at Local, State and Federal levels. The Civil Contractors Federation is an organisation registered under the *Fair Work (Registered Organisations) Act 2009*.

It is governed by a National Board comprised of member-elected representatives from each state and territory. Each branch has an elected board made up of Contractor Members who provide governance and strategic direction, and a Chief Executive Officer who is responsible for the operations and service delivery of the branch.

# Environment

## Environmental Responsibility: A Core Value

Quarrell Civil Construction is firmly committed to minimising our environmental impact and fostering a culture of sustainability throughout our operations. We recognise the vital role we play in protecting our natural environment for future generations. This commitment is embedded within our Integrated Management System (IMS), ensuring environmental considerations are integrated into every project phase, from planning and execution to completion.

Our formal environmental procedures are designed to identify and mitigate potential environmental risks during all stages of a project.

This proactive approach allows us to:

**Minimise resource consumption:** We prioritise efficient practices to reduce fuel usage, water requirements, and overall resource consumption throughout our projects.

**Implement responsible waste management:** We have established protocols for waste segregation, recycling, and responsible disposal to minimise our landfill footprint.

**Protect local ecosystems:** We conduct thorough site assessments to identify potential environmental concerns and implement strategies to minimise disruption to local flora and fauna.

This dedication to environmental responsibility extends beyond simply complying with regulations. We actively seek innovative solutions to minimise our environmental footprint. This ongoing pursuit of excellence aligns with our core values of uncompromising quality and unwavering commitment.

By taking a proactive approach to environmental stewardship, Quarrell Civil Construction is proud to contribute to a more sustainable future for our industry and the communities we serve.
