- Up to 100% finance for farm-development and improvements.
- Interest only and interest capitalised.
- We are relationship driven and independent.
- We tailor facilities to suit what you need.
- Competitive pricing.
- Supporting productivity and growth.

**ABOUT US** - Thera is a management owned Australian non-bank lender focussed on farmland, farm-development, livestock, crops, and harvest-inventory. We provide fast, simple, and flexible finance solutions for Australian producers.

**WHAT WE FINANCE** – We finance direct crop inputs, livestock (including breeding and dairy), feed, and agistment/leases. We finance purchases of cropping and grazing properties, farm development and permanent water entitlements.

**WHO WE FINANCE** - We finance Australian farmers and producers that own, or plan to purchase, farmland. We also finance livestock and crops on agisted or leased farmland.

**PRICING** – Seasonal Finance pricing is in line with pastoral-house rates. Farmland Finance pricing is premium to bank rates.

**SECURITY** – Seasonal Finance; the crop, livestock, or inventory provides the security with a PPSR registration, and a general guarantee is required. Thera may place a caveat over the underlying property if there is a default. Farmland Finance relies on the same security package as Seasonal Finance, plus a first mortgage over the farmland. Thera must be the only non-bank financier for Seasonal Finance.

**HOW IT WORKS** – Seasonal Finance; you send us the invoice for your purchase, and we pay the supplier directly for you. When the livestock or crop are finished, the sale proceeds are paid to us, and we deduct the principal and interest and pay the margin to you. Breeder and dairy loans are paid back on quarterly payments. Farmland Finance works similarly to a bank process.

**WHAT MAKES US DIFFERENT** – Seasonal Finance; you own the livestock, no GST related complications, a facility can be used for livestock (including stockfeed and associated expenses) and crops, and financing is independent of who you buy goods and services from. Farmland Finance; we can move quickly, can handle complex deals and can help you grow faster than what a bank will.

**APPLICATION PROCESS** – To commence your application we require a completed application pack, your rates notice and photo ID. We have local relationship managers to assist with making the application process as easy as possible.
