Pool Day Fun

Bloom Awards Ceremony

Production Department Spotlight

Ashley Dickey
Production Department
Specialist

Creating fills us with purpose—and every time someone buys our work, our spirits soar. Your support recognizes our efforts and fuels our passion to keep crafting with love.

We've seen how creativity empowers our artists to discover their passions, develop new skills, and believe in their own potential. Lately, little by little, each Member has begun to uncover what truly excites them — and it's been a beautiful journey. Through artistic creations we're helping polish and showcase each Member's unique voice and self-expression. Their confidence is growing, and their individuality is shining brighter than ever!

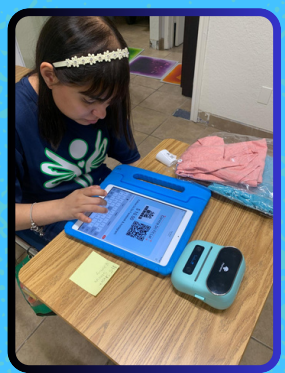

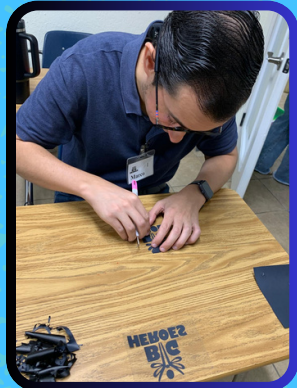

Job Skills & Communication Department Spotlight

Everyone has unique talents and abilities that allow them to be productive members of a community. They only need a chance.

Members have been actively enhancing their reading, writing, and language abilities, as well as developing their computer skills, money counting skills, understanding of economic wants and needs, basic Cricut skills, goal setting, awareness of personal strengths, job-related skills, and internet safety. They are consistently committed to improving these skills in order to support their efforts toward finding employment.
