> THE ULTRA DECK SCREEN

Compact, Efficient, Affordable
Three product, low-cost screening

The Ultra Deck screen is a compact screening unit, with features usually seen on larger machines.

The double deck 3m x 1.2m screen box and fines stockpile conveyor are all mounted within a self contained mobile chassis. Powered by a Kubota Diesel engine, the Ultra Deck makes light work of muckaway, stone and soil, sand, waste materials and wood.

Specification

Deck	Double vibrating deck 1.2m x 3m, with loading pan, Side tensioned mesh
Power Plant	Kubota Diesel hydraulic drive
Drive system	Belt on flywheel, belt on fines conveyor gearbox
Conveyor Belt	1.2m wide 2.7m high stockpile
Extras	Spill plates, mesh, road lights, swiss rosli mounts
