Wait for written acceptance, an itemized quote and shipping instructions.

Your payout schedule.

For new consignments accepted under the September 29, 2026 schedule.

Final item sale price	Payout
\$0.99 - \$9.99	81%
\$10 - \$24.99	83%
\$25 - \$499.99	88%
\$500 - \$999.99	90%
\$1,000 - \$4,999.99	96%
\$5,000+	97%
Approved multi-card lots	75%

\$1 listing fee per card, including every card in an approved lot. Auctions start at \$0.99 and run seven days. The listing fee applies to unsold cards; return or relisting instructions must be agreed before shipment.

Sold-card payout = item sale price x applicable percentage, minus the listing fee. If this calculation is negative, the listing fee is reduced so that the sold-item payout is \$0. For lots, subtract \$1 for each card in the lot, with the same \$0 floor.

Standard marketplace selling and payment fees are included in the retained percentage. Buyer-paid shipping and sales tax are excluded from item sale price. Separately approved prep, restoration, grading and shipping charges are itemized in your quote.

Example: a \$100 single-card sale pays \$87; a \$1,000 sale pays \$959. A \$0.99 sale pays \$0 under the low-sale-price fee adjustment.

If any listing fee was paid in advance, it is credited on the final settlement and is not charged twice. Any low-sale-price fee adjustment is also credited.

This intake requests review. Read the separate Consignment Terms and receive written acceptance before sending cards.
