

Consignment terms.

For new consignments accepted on or after September 29, 2026 | Keep a copy.

1. Review and acceptance

Submitting an inquiry or intake does not authorize a sale. Lazard Collectibles must accept the inventory and confirm the applicable rate schedule, shipping instructions, any special services and unsold-card handling in writing before you send cards.

2. Ownership and disclosure

You confirm that you own the cards or are authorized to consign them. Provide an accurate inventory and disclose known damage, restoration, alterations and authenticity concerns. Acceptance is subject to inspection; a discrepancy must be resolved before listing.

3. Listing and fees

Accepted single-card auctions start at \$0.99 and run seven days unless a different arrangement is agreed in writing. Each card costs \$1 to list, including each card in an approved lot. Unsold cards also incur the listing fee. Prices and sale outcomes are not guaranteed.

4. Payout schedule

Final item sale price: \$0.99-\$9.99: 81%; \$10-\$24.99: 83%; \$25-\$499.99: 88%; \$500-\$999.99: 90%; \$1,000-\$4,999.99: 96%; \$5,000+: 97%. Approved multi-card lots: 75%. Subtract \$1 per card from the percentage payout. If negative, reduce the listing fee to make the sold-item payout \$0.

5. Costs and settlement

The retained percentage includes standard marketplace selling/payment fees. Buyer-paid shipping and sales tax are excluded from the item sale price. Prep, restoration, grading and shipping are separate, approved charges. Any prepaid listing fees and low-sale-price adjustments are credited on the final settlement so fees are not charged twice.

Before you consign.

Questions? Contact lazardcollectibles@gmail.com or 703-867-2613.

6. Payment timing and adjustments

Before shipment, Lazard and the consignor must confirm payout method, payout timing, any applicable payment-provider fees and the handling of returns, disputes or unpaid sales. Payouts depend on the buyer paying and funds becoming available. Lazard supplies an itemized settlement; unresolved transactions must be identified separately.

7. Shipping, insurance and unsold cards

Before shipment, agree in writing on the receiving address, packing requirements, inbound/return shipping costs, insurance, responsibility for transit claims, and return or relisting of unsold or rejected cards. Use tracking and retain the inventory and packing photos. Do not send cards before these arrangements are confirmed.

8. Separate services and withdrawal

Grade prep, grading and restoration require a separate approved scope and quote. No grade or grade increase is guaranteed; restoration may affect value and grading eligibility. Request cancellation or withdrawal promptly. Handling of active listings and already-incurred costs must be agreed in writing, subject to marketplace rules.

9. Payout information and questions

Use the Payout Setup form only to request a secure setup method and service invoice. Do not email banking numbers, payment-card details, passwords or tax identifiers. Report inventory or settlement questions with the submission reference so Lazard can review them.

10. Confirmation

Lazard will provide written acceptance and any agreed changes before shipment. These terms do not replace missing transaction-specific details: payout timing, shipping/insurance and unsold-card arrangements must be completed in the written acceptance. Retain both documents.

Customer name (acknowledgment for review)

Date

Submission reference / acceptance details are supplied separately by Lazard.
