OUR PURPOSE

At Norfab, steel is more than just a material, it's the foundation of strength, safety and progress. Our purpose is to deliver fabrication and construction solutions that combine precision, reliability, and innovation. We don't just build structures; we create lasting value for our clients and communities.

At Norfab, our mission is simple, We don't want to take over the industry, we just want to be the best. We achieve this by providing clients with high-quality, dependable steel fabrication and construction solutions tailored to their needs. Backed by experienced tradespeople, innovative methods and a commitment to excellence. We excel in fabricating, installing, and delivering projects of every scale, from industrial facilities to commercial buildings, bridges, and unique architectural steel. Every project we take on reflects our dedication to craftsmanship, safety and reliability. With Norfab, clients can trust they are getting not just steel, but strength and excellence built to last.

OUR VALUES

WHAT MAKES CUSTOM STEEL FAB & NORFAB?

PEOPLE FIRST

CSF & Norfab is not just an individual; CSF & Norfab is all of us. CSF & Norfab is a team.

QUALITY

As a team we are committed to producing the highest quality products & service.

WE CARE

We care about you! We care about our families! We care about our reputation!

SAFETY

We look out for each other.

CONFIDENCE

We are confident in what we do, therefore building confidence with our customers.

WE BRING SOLUTIONS NOT PROBLEMS

Innovative thinking helps us solve problems, not create them.

CONTINUOUS IMPROVEMENTS

Investing in ourselves enables us to maintain our high level of performance and standards.

WHY CHOOSE US

As a leading steel fabrication and construction company in Townsville, NorFab is trusted for delivering reliable, high quality results across North & South Queensland. With decades of industry experience, we have successfully delivered projects ranging from small custom builds to large scale infrastructure. Our end to end capabilities include 3D scanning, detailed drafting, precision fabrication, on site installation and full project management. Backed by a highly skilled workforce and a fleet of cranes, trucks and equipment, we have the flexibility to service both regional and remote sites efficiently and safely. At NorFab, we pride ourselves on strong client relationships, open communication and a commitment to maintaining the highest standards of safety, quality and performance on every project.

MEET OUR MANAGEMENT TEAM

Travis McElligott Owner Director – Custom Steel Fab & NorFab

Our companies Custom Steel Fab and NorFab stand out due to our commitment to precision, quality, and innovation in our industry. With over 165 years of combined industry experience and a skilled team, we consistently deliver steel excellence year after year. I started Custom Steel Fab not to take over the industry, but simply be the best. We are surrounding ourselves with the best in the industry to reach this goal. We are continually growing, expanding our knowledge and fine tuning our quality control so you can experience steel excellence year after year. Exciting times ahead with the CSF & NorFab team. Each member of the management team carries a strength that enables each other to grow collectively as a business building sustainability while always bringing continuous improvement to our operations to grow in a team orientated environment.

CAPABILITIES

STRUCTURAL STEEL

- On-site 3D scanning & measuring
- Detailed drafting
- Project management
- Fabrication
- Site erection
- On-site welding
- Equipment hire
- Crane hire
- Remote site works

LABOUR & SITE SERVICES

- Qualified boilermakers, riggers & welders
- Trade assistants & site crews
- Site supervision & safety management
- Labour hire for short or long-term projects
- Shutdown and maintenance support
- FIFO crews for remote sites
- Safety-compliant and fully licensed workforce
- Multi-trade team coordination

CUSTOM FABRICATION

- General steel fabrication
- Stainless welding
- Repairs & modifications
- Workshop machining & fitting
- Custom steel components for unique designs
- Prototyping and one-off builds
- Surface treatment & protective coatings
- Aluminium

PLANT & EQUIPMENT

- Mobile cranes & lifting gear
- Forklifts & trucks
- Generators, welders & site tools
- Fully equipped workshop facilities
- Elevated work platforms & scissor lifts
- Transport vehicles
- Overhead Cranes & bandsaws
- Regularly serviced and compliant with Australian Standards

OUR FACILITY & PRODUCTION INCLUDE

- Fabricating facilities combined – 160 tonnes per month
- 6200 m2 Factory floor with 83t overhead gantry crane

- 21 x On Site Utes
- 4 x Isuzu flat bed trucks with tools & consumables
- 2 x Flat bed trucks
- 2 x Project Trailers
- Portable Generators & welders
- Portable Project Containers & offices
- Franna Crane
- Slew Crane
- Forklifts
- CNC Plasma Plate cutting Machines
- 3D Scanner
- Fully equipped fabrication workshops
- Cobot Automated Welding
- Blast & Paint Protective Coatings

GENERAL FABRICATION

heavy medium and light fabrication

We have established a reputation for excellence in welding and fabrication, characterized by our commitment to superior quality. Our expertise spans across various materials, including:

- Carbon Steel Fabrication
- Stainless Steel Fabrication
- Aluminium Fabrication
- Hardened Materials
- Protective coating, Rubber Lining & Wear Protection

Our Capabilities:

- Design, shop drawings, and certification
- Fabrication of chutes and hoppers
- Pipe work
- Structural steel fabrication
- Light and heavy fabrication projects

Our team comprises certified welders proficient in:

- AS 1554.1
- AS 4041
- AS 3992

We ensure complete traceability and provide comprehensive MDR (Manufacturer's Data Report) packages for all fabrication and high-pressure works we undertake.

PUB ON PALMER

NorFab was contracted by FKG to supply and install structural steel for the refurbishment of the Pub on Palmer. This project involved several key aspects, including a new roof for the bistro area, a complete renovation of the main dining entry and various structural steel components throughout the original pub.

The project spanned over eight months and required 26 tonnes of steel. During this time, NorFab effectively navigated a range of complex and challenging undertakings, ensuring the successful delivery of the project while maintaining the exceptional standards the company is known for.

ARDO HOTEL

NorFab was contracted by Prime Construction to supply and install structural steel and aluminium for the Ardo Hotel in Townsville, QLD. Amongst multiple aspects, this project included various components such as a pergola, flooring, the main entry awning and a staff awning.

Spanning over the course of two years, the Project involved the use of 180 tonne of steel. Throughout, NorFab successfully managed several complexities and high-risk tasks, delivering the project to its completion while upholding the highest standards that NorFab prides itself on.

WESTSTATE PRIVATE HOSPITAL

NorFab was contracted by Woollam Constructions to supply and install structural steel frames and mild steel handrails for the new private hospital in Townsville. The overall project included the redevelopment and restoration of the heritage listed building into specialist medical suites, along with the construction of a five storey private hospital on the neighbouring land.

NorFab completed the fabrication and installation within one year, which required 60 tonnes of steel. NorFab effectively navigated the project's complexities, ensuring the project was delivered seamlessly while maintaining the exceptional standards expected of the company.

RIVERWAY STORAGE SHEDS

NorFab was contracted by Hurst Constructions to supply and install structural steel for the Riverway Storage Sheds. This project involved several key aspects, including the fabrication and installation of steel for the storage warehouses as well as the caretaker's residence.

The project spanned over ten months and required 101 tonnes of steel. NorFab demonstrated its capability to manage complex and demanding tasks, ensuring the project was delivered to the high standards the company is recognised for.

MINERS' MEMORIAL WALK

NorFab travelled to Charters Towers to complete the Miners Memorial Walkway for the Charters Towers Regional Council. This project involved supplying and installing handrails along the entire walkway, as well as structural steel to support the foundations of the walkway and the arched steel feature that spans over the top.

This project highlights the use of galvanised handrails and structural steel, showcasing the many ways we can supply and install high quality steelwork. The Charters Towers Miners' Memorial Walk is dedicated to honouring those who lost their lives in mine, mill and quarry accidents while seeking their fortune on the Charters Towers Goldfields. NorFab was honoured to contribute to the construction of the boardwalk.

OUR MISSION

We don't want to take over the industry,
we just want to be the best.
