Let Us Help You Shop

Scrip fundraising is a no-selling program that allows families to raise money for their tuition and/or fees for the following school year. Scrip is just another way to pay for everyday purchases using gift cards in place of cash, checks, and credit cards.

You purchase gift cards from St. Richard School at face value and they order those cards at a reduced price. It usually takes 1-2 weeks for the ordered cards to arrive. **St. Richard School does have a variety of cards on hand for immediate use.** The difference is an instant rebate for St. Richard School. It's really that simple!

When you use scrip gift cards at your favorite retailers, you're fundraising while you shop. Northwest Ohio Scrip Association offers around 100 of the area's biggest retailers, including grocery, department stores, gas stations, restaurants, home improvement, and more. Just by using scrip to pay for your normal weekly purchases, you can easily raise \$500 or more per year. It's time to put your shopping dollars to work!

Gift cards we have at school*:

- Amazon (\$25)
- Chili's (\$25)
- Kohls (\$25 & \$100)
- Kroger (\$25 & \$100)
- Loma Linda/Ventura's (\$10)
- McDonald's (\$10)
- Meijer (\$25 & \$100)
- Menard's (\$25)
- Speedway (\$25)
- Starbucks (\$5, \$10, & \$25)
- Subway (\$25)
- TJ Max/Marshalls/HomeGoods (\$25)
- Walmart (\$25 & \$100)

PROMEDICA

TOLEDO HOSPITAL | RUSSELL J. EBELD CHILDREN'S HOSPITAL

"I want to be someone who cares about people. It's important to me to give back to area hospitals because [children born with Congenital Heart Disease] are stuck in the hospital fighting the same battle I'm fighting. I know what that feels like and how overwhelming it can be when everything is going on and you don't understand it." Caden Laney Caden was born with a Bicuspid Aortic Valve, a Congenital Heart Defect (CHD) that causes Aortic Valve Stenosis. A normal aortic valve has three leaflets that form a gateway from the heart to the rest of the body. Caden's bicuspid aortic valve was stenotic or tight and restricted blood flow exiting his heart. Caden has spent much of his childhood in and out of the hospital working to correct his CHD. In September of 2015 Caden was able to successfully undergo an open-heart surgery to replace his aortic valve with his normally formed pulmonary valve and he was blessed to receive a cadaver valve in his pulmonary position. This operation, known as a Ross Procedure, corrected Caden's Aortic Valve Stenosis. Caden's battle with CHD is far from over as he continues to require frequent monitoring and will likely need further corrective surgery to repair his Aorta again in adulthood. Although Caden's journey with CHD has not been easy he remains positive and determined to support and inspire other children like him. In 2019, when Caden's mom asked what he wanted for Christmas, Caden responded saying he "wants to donate his gifts to children spending the holidays at C.S. Mott Children's Hospital." Caden did just that! Caden's passion for this toy drive and his mission to spread joy through it has only grown stronger over the past 7 years. In 2023 Caden underwent Valve Sparing Aortic Root replacement and a total replacement of Pulmonary valve. his second open heart surgery to further correct his CHD. And while Caden received the all clear he knows that CHD is still a life long journey and this toy drive is his way of helping those that are in the same position as he once was.
