# Ascentis Asset Management Trend Monitor brought to you by Michael Melissinos

## MICHAEL MELISSINOS, FOUNDER & CEO

Michael worked at SMB Capital (2009-2010) where he traded U.S. equities and developed trading strategies. Previously, Michael worked as a market intelligence analyst at Bear Stearns and JP Morgan (2007-2009) where he helped traders and research analysts assimilate market data from earnings announcements, conferences and other key events; as well as pitch stock picks to clients.

Michael began his research into trend-following while working at Bear and JPM. Both, the Bear collapse and the Financial Crisis motivated him to challenge the traditional investing approach and improve upon traditional CTA trend following. Michael launched his CTA in January 2011.

Melissinos Trading is registered with the CFTC as a commodity pool operator and commodity trading advisor and has been a member of the National Futures Association since 2010. Mike holds a BS in Accounting from Seton Hall University.

## How to use the Ascentis Asset Management Trend Monitor

The Trend Indicator illustrates the long-term trend in each market as of the specified date. The trend is calculated using a proprietary methodology that weighs the price channels and volatility for each market. The intention of the Trend Indicator is to provide you with information on how trends-based money managers are likely positioned.
