Advanced Facial Treatments for Healthy, Radiant Skin

Advanced technology for safe and
painless skin cleansing, hydrating,
and tightening

1 Hydrodermabrasion

Deep cleanse & hydrate.

Hydrodermabrasion uses a water-based exfoliation to cleanse pores, remove impurities, and infuse hydration for instantly fresher, smoother, glowing skin.

Ideal For: All skin types, dehydration, dull skin, and congested pores.

HYDRODERMABRASION

2 Diamond Dermabrasion

Smooth & renew skin.

Gently exfoliates with diamond tips to remove dead skin, improve texture, and reduce fine lines, acne scars, and dark spots for a brighter complexion.

Ideal For: Uneven texture, dull skin, and mild signs of aging.

3 Oxygen Infusion

Boost skin oxygen & glow.

Delivers oxygen and nutrients into the skin to refresh, brighten, and revitalize dull or tired-looking complexions.

Ideal For: Dry, stressed, or dull skin.

Before
Dehydrated Skin

After
Hydrated Skin

4 Radiofrequency

Skin Tightening

Radiofrequency technology gently heats the deeper layers of the skin, stimulating natural collagen and elastin production. This process helps tighten existing collagen fibers while encouraging new collagen growth for long-lasting skin rejuvenation.

Ideal For: Loose or sagging skin, fine lines and wrinkles, dull, and aging skin
