

Easy Be dishwashing service: sustainable service for the camp site of tomorrow

The camping industry moves increasingly towards more comfort, hygiene, and sustainability. Campers expect amenities that contribute to convenience and quality, while camp site owners also have needs for efficient and reliable solutions.

The unique Easy Be dishwashing service fits seamlessly with these needs. Using specially designed dishwashers for guest, which are economical with water, energy, and holiday time, Easy Be offers a modern and sustainable solution. For guests, this means hygienic and effortless dishwashing. For camp site owners, it's a carefree service that includes installation, service, support, all consumables and warranties.

Nearly 300 camp sites in 17 countries currently use Easy Be. They have experienced how the service enhances the guest experience and simultaneously contributing to quality and sustainability goals. In doing so, Easy Be delivers a concept that fits the high-quality standards of camp sites where service, quality, and customer satisfaction are a priority.

Easy Be combines comfort, efficiency, and sustainability into helping camp sites respond to the growing expectations and needs of their guests.
