## Clinical Quality Measures

2023 measurement year

| Measure                                               |                         | Rating         | Rate   |
|-------------------------------------------------------|-------------------------|----------------|--------|
| Adolescent Depression                                 | PHQ-9 Utilization*      | -              | -      |
|                                                       | Follow-up at Six Months | -              | -      |
|                                                       | Response at Six Months  | -              | -      |
|                                                       | Remission at Six Months | -              | -      |
|                                                       | Follow-up at 12 Months  | -              | -      |
|                                                       | Response at 12 Months   | -              | -      |
|                                                       | Remission at 12 Months  | -              | -      |
| Adult Depression                                      | PHQ-9 Utilization*      | -              | -      |
|                                                       | Follow-up at Six Months | -              | -      |
|                                                       | Response at Six Months  | -              | -      |
|                                                       | Remission at Six Months | -              | -      |
|                                                       | Follow-up at 12 Months  | -              | -      |
|                                                       | Response at 12 Months   | -              | -      |
|                                                       | Remission at 12 Months  | -              | -      |
| Adolescent Mental Health and/or Depression Screening* |                         | -              | -      |
| Colorectal Cancer Screening                           |                         | -              | -      |
| Optimal Asthma Control - Adults                       |                         | Above Expected | 86.70% |
| Optimal Asthma Control - Children                     |                         | Above Expected | 81.70% |
| Optimal Diabetes Care                                 |                         | -              | -      |
| HbA1c Control                                         |                         | -              | -      |
| BP Control                                            |                         | -              | -      |
| Daily Aspirin Use                                     |                         | -              | -      |
| Statin Use                                            |                         | -              | -      |
| Tobacco-Free                                          |                         | -              | -      |
| Optimal Vascular Care                                 |                         | -              | -      |
| BP Control                                            |                         | -              | -      |
| Daily Aspirin Use                                     |                         | -              | -      |
| Statin Use                                            |                         | -              | -      |
| Tobacco-Free                                          |                         | -              | -      |

- Medical group not assigned to measure, did not have results, or did not meet reporting threshold

\*Measure not risk adjusted

## Advancements in Allergy and Asthma Care

### Healthcare Effectiveness Data and Information Set (HEDIS) Measures

2023 measurement year

| Measure                                                             | Rating | Rate |
|---------------------------------------------------------------------|--------|------|
| Avoidance of Antibiotic Treatment in Acute Bronchitis/Bronchiolitis | -      | -    |
| Breast Cancer Screening                                             | -      | -    |
| Cervical Cancer Screening                                           | -      | -    |
| Childhood Immunization Status (Combo 10)                            | -      | -    |
| Chlamydia Screening in Women                                        | -      | -    |
| Controlling High Blood Pressure                                     | -      | -    |
| Diabetes Eye Exam                                                   | -      | -    |
| Immunizations for Adolescents (Combo 2)                             | -      | -    |
| Follow-up Care for Children Prescribed ADHD Medication              | -      | -    |
| Osteoporosis Management in Women Who Had a Fracture                 | -      | -    |
| Use of Spirometry Testing in the Assessment and Diagnosis of COPD   | -      | -    |

- Medical group not assigned to measure, did not have results, or did not meet reporting threshold

#### Ratings

**Above:** Medical group's actual rate is significantly above its expected rate (for risk adjusted measures) or the statewide/medical group rate (for unadjusted/HEDIS measures).

**Average:** Medical group's actual rate is not statistically different than its expected rate (for risk adjusted measures) or the statewide/medical group rate (for unadjusted/HEDIS measures).

**Below:** Medical group's actual rate is significantly below its expected rate (for risk adjusted measures) or the statewide/medical group rate (for unadjusted/HEDIS measures).

### Total Cost of Care

2023 measurement year

| Population | Monthly Average Cost | Rating | Higher/Lower than Average |
|------------|----------------------|--------|---------------------------|
| Overall    | -                    | -      | -                         |
| Adults     | -                    | -      | -                         |
| Pediatric  | -                    | -      | -                         |
