

INTRODUCTION TO ANNEX NETWORK

GLOBAL COMMODITIES TEAM

2025 DOCUMENTATION LISTED AS PUBLIC INFORMATION

anneXnetwork

Letter from the Owner,

I established Annex Network with the vision of creating a comprehensive commodities platform that connects businesses across international boundaries. Today, our network spans multiple continents, facilitating partnerships with a diverse array of industry stakeholders. As we continue to expand and strengthen our global presence, Annex Network remains at the forefront of the commodities sector.

Oliver Smith

General Partner and Founder
Annex Network

anneXnetwork

Introduction

Annex Network is a network operating at the forefront of the global commodities trade. Our core strength lies in transparent and structured facilitation of procurement at large-format quantities across historically, the agricultural sector.

As a trusted operator, we ensure integration between qualified buyers to the real seller market, creating transparent connections in the procurement process. Our expertise spans agricultural, fuel, and metal commodities, with a primary focus on delivering outcomes for key stakeholders..

Market Position

Annex Network maintains a privileged position in the commodities market by being direct to allocation holders and verified end suppliers. Our reputation is built on a foundation of integrity, due diligence, and the ability to consistently deliver results.

We cater to institutional buyers, manufacturers, and large-scale trading firms across international markets. Whether it is Sugar ICUMSA 45, grains, or other, our network ensures you engage with the right source—eliminating delays, mitigating fraud risk, and enhancing procurement certainty.

Operating Model

We operate using a tested and secure network framework designed to streamline each stage of the procurement process:

Each stage is handled with precision and care, ensuring that our clients experience transparency, reliability, and speed.

Oceania

Annex Network operates from a strong base in Australia, supported by trade partnerships in New Zealand, Fiji, Samoa, and Tonga. As the central hub for our global infrastructure, Australia connects buyers to verified allocation holders—trusted producers and suppliers with guaranteed access to high-demand commodities. This structure ensures reliable supply, efficient logistics, and enhanced negotiating power for every transaction.

Asia

Annex Network maintains established partnerships across key financial hubs in Asia, with China playing a central role in ICUMSA 45 sugar procurement through long-standing, government-backed contracts. Strategic relationships in Singapore, India, and Japan further strengthen our sourcing capabilities. All trade certificates are active, verified, and included in supporting documentation upon agreement.

United Arab Emirates

The United Arab Emirates serves as a key financial and trade hub within the Annex Network, offering a stable, business-friendly environment for high-value transactions. As a trusted and reliable partner, the UAE plays a central role in facilitating secure, efficient trade flows across the Middle East. Saudi Arabia and Dubai are internationally recognized as premier logistical partners in the region, further strengthening the reliability and reach of our operations.

Direct-to-Source Advantage

At Annex Network, we are proud to represent verified allocation holders and end suppliers.

This direct access means:

- No intermediaries adding confusion or cost
- Clear, verifiable documentation
- Confidence in supply chain integrity
- Better pricing and timely execution

Our relationships are built on proven performance, allowing us to offer peace of mind to buyers navigating complex international markets.

Annex Network Ethos

- Only work with suppliers with allocation and existing trade history.
- Access products from producing countries, backed by secure shipping and logistics.
- A performance-based model ensures that our interests align fully with yours.
- We advocate for transparency, timely communication, and complete documentation.

What We Offer Procurement Teams

- Access to verified commodities at competitive market rates
- Full-service support: documentation, compliance, shipping, and negotiation
- A dedicated contact person throughout your procurement journey
- A network rooted in professionalism, reliability, and performance

Buyer Onboarding Requirements

To begin a successful transaction, buyers should be prepared to provide:

- A clear Letter of Intent (LOI) detailing specifications and volume
- Proof of Funds (POF) or financial readiness
- Corporate documents for due diligence
- Agreement to a Non-Disclosure Agreement (NDA) prior to offer issuance

Let's Connect

Annex Network is ready to connect established buyers of agricultural commodities. If your organization values security, speed, and strategic sourcing, we welcome the opportunity to work.
