ASC *Welcome*

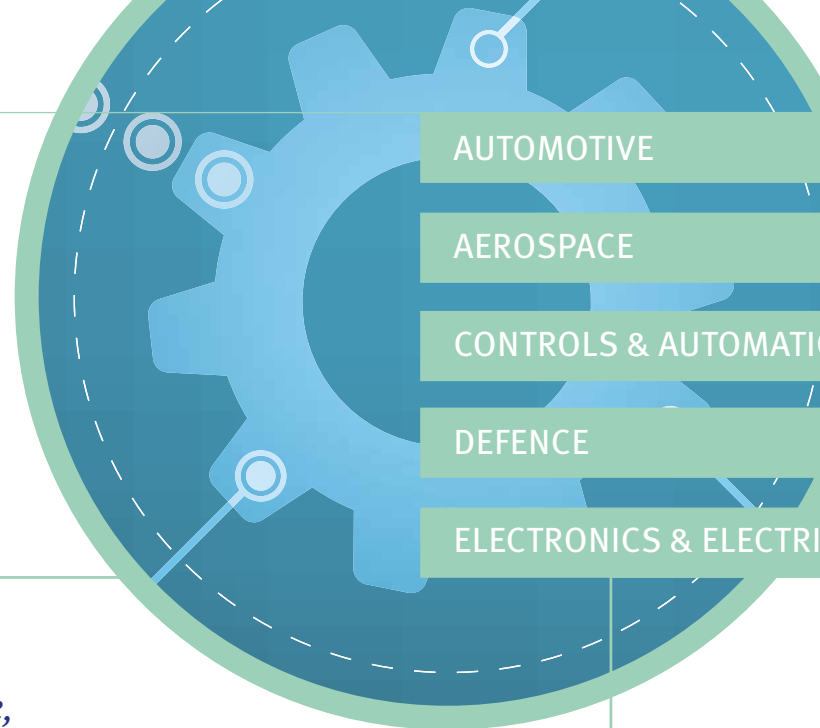

We started our business in a small office over 25 years ago. Having experienced global economic upturns and downturns during this time, we now operate from a network of offices across the UK and are proud our core values and ethos still remain the same.

“A truly professional and relevant service to be provided by expert recruiters working in clearly defined markets”

We understand technology has evolved and how we communicate with one another has changed dramatically, however, the fundamentals of how we effectively recruit remain the same. People working with people, building business relationships to identify needs, desires and ambitions.

We love what we do here at ASC and we remain passionate about helping individuals to realise their potential whilst adding real value to leading organisations.

Engineering & Manufacturing Recruitment Solutions

Finding great people forms the basis of a great business and keeps your business in the global market place. Do you find this can sometimes be an impossible task?

Here at ASC, we are passionate about connecting you to the right engineers and manufacturing professionals who are the best fit for your business. We recognise it is important to work alongside a recruitment partner, with the industry knowledge and capability to provide you with the right solution. By listening to your technical and personal requirements, we can provide temporary, contract and permanent recruitment solutions and a number of recruitment services such as:

CONTINGENCY RECRUITMENT - Ad hoc, one off recruitment campaigns

RETAINED SEARCH / SELECTION - Dedicated consultant/team working full time on your campaign

HEAD HUNTING - Specifically focused on engaging selected individuals for your role

MANAGED SERVICES, RPO - Managing either the entire or select areas of your recruitment process. This can include the management of 3rd party supplier lists

CAMPAIGNS - A paid strategic advertising campaign

Industry Focus

We focus on nine key industries across engineering and manufacturing, however, our experience and knowledge means we have the ability to work within other industries if required.
