## WHO WE ARE

**The Advanced Pain Management Institute (APMI)** is a fully integrated, comprehensive pain management clinic with state-of-the-art equipment available on site.

At APMI, we specialize in comprehensive pain evaluations, interventional pain management and opioid detoxification.

For patients with chronic pain, the APMI approach is multidisciplinary. Our board certified pain management team of providers work closely with other specialists, including chiropractors, spine and orthopedic surgeons, neurologists, and psychologists to optimally coordinate the care of our patients.

*"I wanted to say thank you. You have no idea the new lease on life you have given to me and my family. I can physically enjoy being a mother again, I can touch my toes, I can walk without pain I will enjoy every day to the fullest. Thank you so much."*

D.H.
