

XPEL WINDSHIELD PROTECTION FILM

Care instructions

Use the provided maintenance Restore chemical every 1-3 months. The kit will come with approximately 12 applications. If you run out, we do have more for purchase. Wash your vehicle, dry the windshield, spray the restore product on the windshield and wipe away with a clean microfiber cloth.

Warranty information

XPEL, Inc. warrants to the owner that for one (1) year or 19,000 Kilometers (whichever occurs first) from the date of installation, XPEL Windshield Protection Film will remain free from yellowing, cracking, blistering, and delaminating.

Exclusions

This Limited Warranty does not cover:

- Windshield damage such as chips, or breakage. Due to providing protection to your glass as intended use.
- **Use of ice scrapers or abrasive materials**
- Damage from power/pressure washers or improper cleaning techniques
- Normal wear such as stains and scratches, including those from wipers
- Damage from environmental factors or collisions (hail, rocks, road debris, etc.)
- Use in non-automotive or commercial applications
- Use of non-XPEL branded coatings or products

XPEL WPF RESTORE - Enhance & Extend Windshield Protection

Give your XPEL Windshield Protection Film (WPF) a boost with XPEL WPF RESTORE. This specially formulated product is designed to rejuvenate and maintain the hydrophobic properties of your windshield film, ensuring it stays at peak performance and delivers long-lasting protection.

KEY BENEFITS:

- **Enhanced Hydrophobicity:** WPF RESTORE adds a water-repellent layer, helping water bead off your windshield effortlessly.
- **Simple Application:** Easy-to-follow instructions make it simple to refresh your windshield film at home.
- **Prolongs Film Longevity:** Applying WPF RESTORE every 6 months helps maintain the durability and clarity of your XPEL WPF.

HOW TO USE:

1. Ensure your XPEL Windshield Protection Film is clean and dry.
2. Shake the bottle of WPF RESTORE well before use.
3. Lightly mist the product onto one of the four sections of your windshield.
4. Spread evenly with a clean microfiber towel and buff to a smooth, clear finish.

Keep your vehicle looking its best with XPEL WPF RESTORE, and enjoy crystal-clear views even in the toughest conditions.
