

Community Assembly of the British Isles

Restoration not rebellion

CA British Isles (CABI) is a welcoming, member-led community for people who want to live more freely and support one another through Natural Law.

Our vision is to help local people build stronger, self-reliant communities where decisions are made together, and everyone has a voice.

Membership is free and Members can join local assemblies or start one by becoming Facilitators, sharing skills with the support of our Community Peace Service, Community Health Initiative and other services.

Who can join?

CA British Isles is for anyone who:

- Wants to be part of a supportive, active and like-minded network.
- Feels called to help rebuild strong, independent, local communities.
- Would like to join a local assembly or become a Facilitator to start your own.

What do we do?

- Build community together by creating a positive alternative that operates parallel to (and separate from) existing systems.
- Provide guidance and support including spiritual care, natural healing and a dedicated peace keeping service for Members founded on Natural Law.
- Empower local voices by returning choice, responsibility and freedom to the people.

How can you get involved?

- It's free and simple — no fees, no barriers, no hidden costs, any age group.
- Step in with us — agree to abide by Natural Law and to vote when required.
- Take action locally — set up your own assembly or join one already nearby
- Attend regional and local meetings - to find out more and connect with others

Be part of something bigger, rooted in community, freedom, and care. Together, we can restore a way of life that honours humanity and Nature by building the future we want to see.
