

# Community Assembly of the British Isles

## Restoration not rebellion

CA British Isles is a welcoming, member-led community for people who want to live freely and support one another under Natural Law. Our vision is to help local people build strong, self-reliant, Community Assemblies where decisions can be made together and everyone has a voice.

Membership is free and anyone can join and set up their own Community Assembly by becoming one of three Facilitators with the full support of our Community Peace Service, Community Health Initiative and other services.

### Who can join?

CA British Isles is for anyone who:

- wants to be part of a supportive, active and offline, like-minded network
- feels called to help to build strong, independent, local communities
- would like to join a local assembly or become a Facilitator to start their own

### What do we do?

- provide services for our Members while creating positive and effective alternatives that operate independently and parallel to existing systems
- provide guidance and support in spiritual care, natural healing and peace keeping protection with fully trained Peace Keepers and Constables of the Court
- provide the means to create a spiritual parallel society led by the people

### How can you get involved?

- free and simple — no fees, no barriers, no hidden costs, any age group
- step in with us — agree to abide by Natural Law and to vote when required
- take action locally — set up your own assembly or join one near to you
- attend regional and local meetings - to find out more and connect with others

Be part of our family rooted in community values, freedom and care. Together we are restoring a way of life that honours humanity and Nature - for ourselves and for future generations
