# The Abbotts Grade 8–9 Experience

## A Foundation for Success

Grades 8 and 9 are critical years for personal and academic development. At Abbotts, we create a learning environment where younger students feel inspired, supported, and prepared for their senior years. We understand that young students might have the need to move around more frequently and have placed an emphasis on developing spill-out areas designed with them in mind.

# Results That Matter

- **Subject Clinics**  
Extra support lessons are scheduled to close learning gaps and provide more intense intervention.

# YOUR COMMITMENT

## A Partnership for Progress

We provide the tools, resources, and support – but success requires effort

### Student Responsibilities:

-  **1** Attend classes regularly and engage actively.
-  **2** Take ownership of your learning journey.
-  **3** Embrace opportunities for growth and support.

The effort rating system at Abbots evaluates students based on their commitment, participation, and engagement in their academic journey, rather than just their outcomes. Teachers assign effort ratings that appear on reports, providing students and parents with a clear understanding of their dedication and areas for growth. This system motivates students to focus on consistent effort, building resilience and accountability.
