

SAU Tech
Center of Excellence
Defense Manufacturing Center of
Excellence

Overview

SAU Tech is building a Center of Excellence focused on advanced manufacturing, aerospace, and defense. We have secured \$15 Million for construction and \$5 Million for equipment. This project is moving forward.

Our Goal

We are raising \$5 Million to complete the project and ensure long-term sustainability.

Funds will be used for:

- Complete a 50,000 square foot training facility.
- Build labs for robotics, PLC, CNC, welding, and advanced manufacturing.
- Provide space for industry training and community events.
- Support long-term equipment upgrades.

Sustainability

Technology changes quickly in this field. This effort ensures we can replace equipment, upgrade technology, and stay aligned with workforce needs.

Engagement Opportunities:

<u>Opportunity</u>	<u>Investment Range</u>
Community Giving	Any Amount *
Classroom & Learning Space Naming	\$25K-\$75K
Lab Sponsorship (Welding, CNC, etc)	\$100K-\$250K
Major Naming Opportunities	\$250K-750K+
Sustainability Fund	Flexible Giving

***Donor Recognition**

Donors may choose to be recognized on our Rocket Nation Wall. While every gift is valuable, wall recognition begins with contributions of \$1,000.
