Data Analytics Workshop Setup Instructions

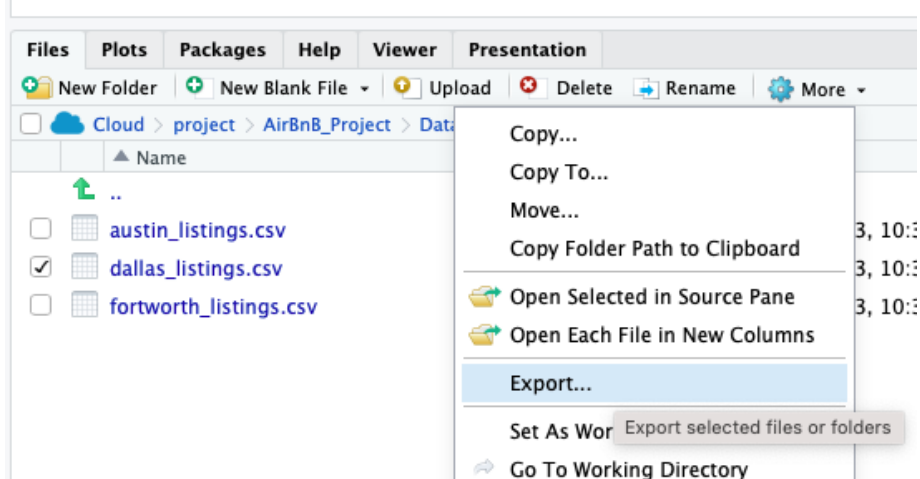

Welcome to the SURE data analytics workshop! To access the workshop data, you'll need a **free** Posit Cloud (formerly RStudio Cloud) account.

To create a free Posit Cloud account, please do the following:

1. Please use the QR code on the screen to navigate to the workspace for this Data Analytics Workshop:
2. Click "Sign Up" for an account (unless you already have one) and log in to the website.
3. Today we will work on the "SURE/AirBnB" Project as a group. Please navigate to this project to get started.

If you would like to use JMP, please also do the following:

1. Navigate to <https://www.jmp.com>.
2. Click on "Download Free Trial" and follow the instructions to download/install a free trial of JMP.
3. Download the appropriate data set(s) using the "Export" feature in RStudio Cloud as shown screenshot below.

4. Open the downloaded data in JMP and proceed with your analysis.
