

CENTRAL KANSAS GUN CLUB OF RENO COUNTY INC.

AUGUST 2025 NEWSLETTER

NEWS YOU CAN USE:

Members, **YOU** need to pay attention to the range menu sign at the south gate.

This sign is meant to advise you of range status. If the sign says a particular range is closed, then it is "**CLOSED**"! The barricade may or may not be across the path, **THE SIGN** determines range status!

WHILE WE ARE ON RANGE SUBJECTS:

1. Pickup your brass, put it in the brass bucket, not the trash.
2. Before you leave, make sure you take down your targets.
3. Pickup your trash, make it a habit to leave it better than you found it.
4. The speed limit is 10MPH, please observe this while on club grounds.

LOST & FOUND: If you lost something at the range check with Dennis. If it was found he will have it or know who does. Right now Dennis has a stockpile of "finds," contact him and get your stuff back.

Coffee time: On the second and fourth Thursday of each month a group gathers at the clubhouse at 8:30am for coffee and fresh Daylight Donuts. There is also a wide variety of wisdom dispensed on several topics depending on which group of experts are gathered on that particular day.

If you are not attending these events, you are depriving yourself of valuable knowledge and/or opinions that may or may not improve your quality of life. At the very least you are missing out on caffeine and calories that every adult needs. September dates are the 11TH & 25TH.

STEP UP: We have a few members that have a lot of duties to take care of around the range and operation of the club. Right now we need a chairman for the Shotgun program. You could do this! No one will leave you without help, Travis is a veritable plethora of knowledge, and he is just a phone call away. Step up and get in touch with Travis or Dennis.

New Members:

Logan Corley was the lone new member for the month of July. Three new members joined the club in August: Brian Bertrand, Scott Barnhart, and David Klingensmith. We welcome all of you!

PROGRAM REPORTS:

High-Power:

Their next match is scheduled for August 17th (Sunday) and then the following Saturday, the 23rd. Practice will be on Wednesday night, the 27th.

Shotgun:

A new order of targets has arrived. A trap machine technician was called out to repair one of the trap machines. High School trap will start on September 7th.

22 Fun Shoot:

Practice time is the 1st & 3rd Monday evenings 6 to 8 pm. There were seven participants in the August 10th match. Nex match is on September 14th.

USPSA/SCSA:

August 15 participants for USPSA – 13 participants for SCSA

PCC – cancelled

Action Pistol: - No report

Remember to check the club calendar on the website for the latest scheduling information.

The 4H Page

4-H Youth activities for the month.

The 4-H Program hosted a 4-H shotgun qualifier match on August 2, 2025. There were 34 youth participating in trap and 20 in skeet. Twelve different counties were represented. We had 4 of our youth participating in trap with Chris Zongker qualifying to go to the state 4-H match.

On August 9th we hosted a small-bore rifle and small-bore pistol match. 15 youth participated in the rifle match and five in the pistol match. Ellie Marten took first in rifle with a score of 337 and Brendan Clark took second in the Jr division with a score of 180. There were nine different counties participating.

A big thank you to Ray, Bruce, Bryan, and Jon (and anyone else I may have missed) for helping train the next generation of club members.

SOMETHING NEW!! CHECK THIS OUT!

AR TACTICAL CLASS AT CKGC: Most of you are aware that the High Power Rifle program holds regular mid-range (600-yard) prone matches at our little club. Some shooters might be intimidated by the specialized rifles, shooting jackets and other equipment necessary for this discipline **BUT YOU DON'T HAVE TO BE!** There is a new AR Tactical division that is a lot less equipment intensive and many club members have a rifle that would work for that right now. You basically need some sort of AR-15 or AR-10 rifle chambered in some kind of centerfire cartridge with a bullet diameter from 5.56mm (.223") up to 7.62mm (.308"), a barrel length of 22" or less, and a scope of 16-power or less or higher power if taped to 16x. No slings or shooting coats necessary. A front bipod or bag or backpack may be used along with a rear bag without "ears" or guides. Adjustable stocks allowed with some minor restrictions. A shooting matt or some sort of pad is allowed and highly recommended. That's it. None of this other paraphernalia the match rifle and F-class shooters burden themselves with. For .223 cartridge, local range rules state minimum bullet weight of 68-grains is required and 7.62x39 won't get it either, but any of the 22 Nosler, 22 or 6mm Arc, the other "hot" 6mm and 6.5mm will work. Still don't have a suitable rifle and/or confused about what one is? One of the guys will have one available for your inspection and/or use, including ammunition. Anyone intimidated by shooting at 600-yards need not be, the high power rifle people do it all the time, and they all had to start someplace. Show up with a 200 or 300-yard zero and we will get you on paper at 600 without any fuss or drama and you'll be amazed at what you can do if you get down behind your rifle, hold hard and favor center. We're talking instant gratification here! Contact John Heger at 316-209-5466 or heger1959@gmail.com for more details. The remaining opportunities for this shooting season are:

Sept. 5, practice session Friday afternoon 1 PM to 7 PM.

Sept. 7, mid-range match Sunday, registration 7:30 to 8:15 AM, commence fire 8:30.

Sept. 10 & 24, practice session Wednesday evenings 5PM to 8 PM.

Sept. 26, practice session Friday afternoon 2 PM to 5 PM.

Sept. 27, mid-range match Saturday, registration 7:30 to 8:15 AM, commence fire 8:30.

Sept. 28, mid-range match Sunday, registration 7:30 to 8:15 AM, commence fire 8:30.

Oct. 8 & 22, practice session Wednesday evenings 5PM to 8 PM.

FOR SALE

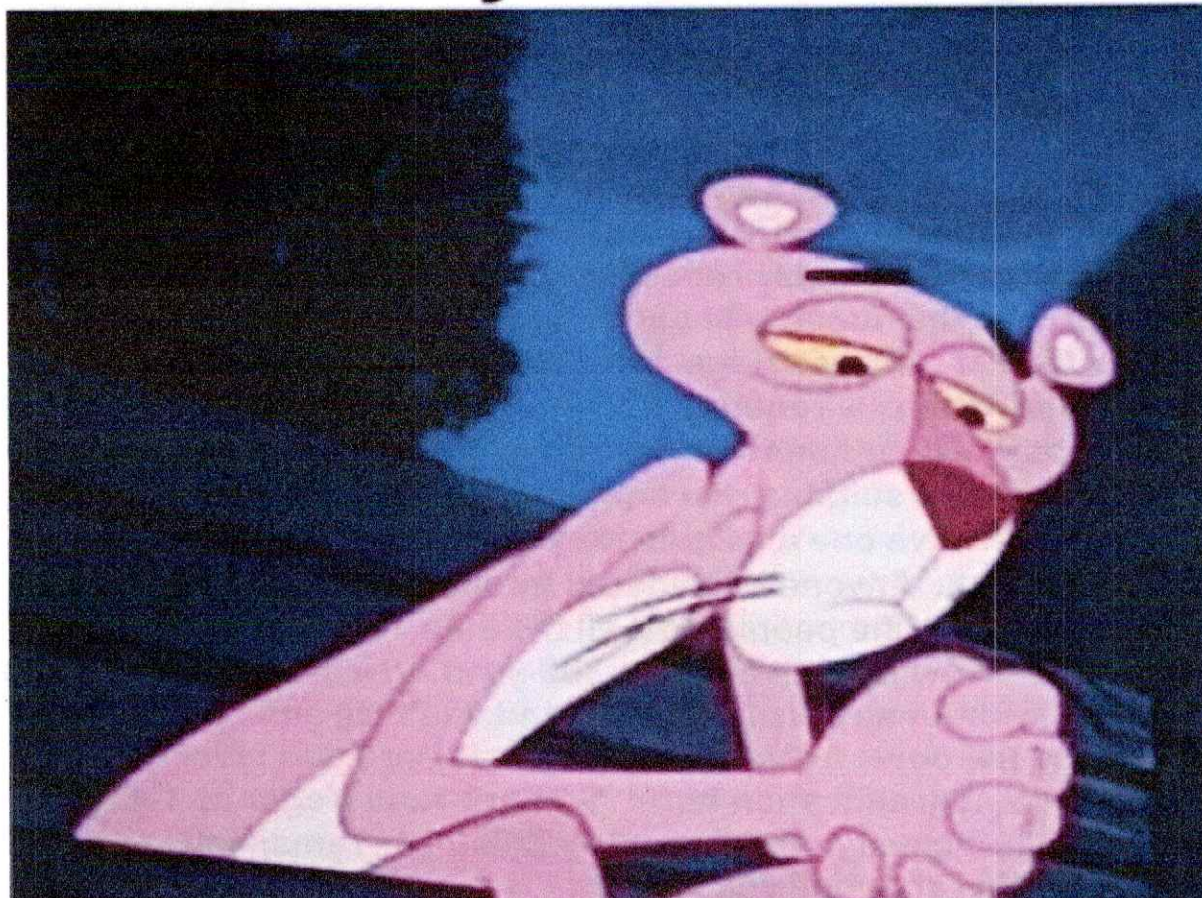

Complete Single stage reloading equipment plus digital scale, tumbler and medium, complete dies for 45 ACP, 1 lb. HS-6, 1/2 lb. CFE pistol, 1/3 lb. 231 powder, 600 Win large pistol primers, 100 185 gr XTP, 250 200 gr SWC bullets, 1500 rounds of used 45 ACP brass de-primed sized and cleaned and 100 round storage boxes. \$200.00 for all.
