

## Official Competition & Warm-Up Equipment Overview

### Overview

All competition and warm-up rings at the event will feature UKI-specification Galican agility equipment, supplied exclusively by RUN IT! Ultimate Dog Agility Equipment. Equipment will be consistent across three competition rings and one warm-up ring.

Equipment colors were carefully selected for all competition rings by FlatOut Dogs, and chosen through extensive research completed by FlatOut Dogs in preparation for the event. The research included consideration of the ring background colors, ring surface (green turf), as well as contrast from equipment on equipment (ie: tunnel under a dog walk).

Consideration of color was based on dogs vision and also judgability.

Tunnel Colors and tunnel type was also selected following the tunnel study found here ([Click here](#)).

The following equipment and colors will be featured at the event:

### Jump Equipment

Intercan PVC Jumps (5' Bars):

- Yellow & Blue (Blue/White bars)
