rade	NO.	

Work Order: 33040. Continued from previous page:

-SEB 95-3R1 complied with by inspecting flap roller attach points for wear and installing 8 ea. washers P/N S1450-3S10-032 to forward roller attach pints. Torqued attach bolts.

-SEB 86-5R1 complied with by installing "Fuel Contamination" Placard P/N 0705098-1. "Seat Locked" placard incorporated with screen printing at panel installation.

-ELT maintenance check performed in accordance with FAR207 (a)(1)& (d). Next due 9/04. Next battery change due 3/2010. Control battery change due 9/2012. (See Moody Aviation Work Order 34029 for details.)

-Installed new vacuum air filter P/N D9-18-1. Next change due at TT: 3524.24.

-Verified previously installed Cleveland main wheels and brakes in accordance with STC#SA13GL and Cleveland drawing 20-134 and mounting instructions 50-24 Rev B dated 2-2-73. Cleveland main wheels and brakes originally installed 6/30/77 at tach: 1239.5. See FAA form 337 dated 9/12/2003.

-Removed existing left and right control wheels. Installed new control wheels in accordance with STC#SA00709LA and Avion Research Corp. master drawing list # CW-ML001 dated August 26, 1999 and Installation instructions # CW-8001 Rev 1 dated February 26, 1998. See F337 Dated 09/25/2003.

-Removed original pilot and copilot sun visors and installed Rosen Products LLC sun visors, P/N: RCS 300-1, in accordance with STC#SA00871SE Approved Model List # SA008871SE, dated January 25, 2001 and installation instructions Doc # 9050-0118-012 Rev A dated 6/30/2000. See F337 dated 9/12/2003.

-Installed New elevator trim wheel indicator placard P/N 0411422.

-Installed New "Normal Category" and "Utility Category" limitation placard P/N 0511489-1.

-Installed new door seals P/N R860064 to pilots and co-pilots doors.

-Installed new window seal P/N S2108-4 to pilots door.

-Installed new nose wheel fairing P/N 0743609-17. Painted fairing to match aircraft paint.

-Installed new dome lamp P/N 1816.

-Installed new Pitot line P/N S1071-1between wing root and instrument.

-Installed new vernier type mixture control McFarlane P/N MC600-72 (FAA-PMA approved). Cut control to required length, connected and rigged. Torqued attach bolt.

-Reinstalled original throttle cable after installation of Avion instrument panel. Connected, rigged and torqued attach bolt.

-Installed new cabin air control assembly P/N S1230-17. Cut control to required length, attached and rigged.

-Installed new cabin air heat control assembly P/N S1230-17. Cut control to required length, attached and rigged.

-Installed new carburetor heat control assembly P/N S1230-17. Cut control to required length, attached and rigged.

-Installed springs 2 ea. P/N 0541167-1 to left and right brake master cylinder and link P/N 0541178-1 installed on spring to lever on right brake master cylinder. Reinstalled park brake control and rigged.

-Installed new right brake caliper P/N061-01900. Installed 1 ea P/N MS28775-224 o ring. Installed new brake linings 2 ea. P/N 066-10500 and torqued attachments. Installed new o ring P/N MS28775-110 and new loc-o-seal P/N 800-001-6 to right master cylinder. Bled brake.

-Installed new brake linings 2 ea. P/N 066-10500 to left brake and torqued attachments.

-Installed 5 ea. P/N 0523921 roller, 2 ea. P/N 0523920 roller and 2 ea. P/N 0523919 bushing to left and right flaps. Reinstalled flaps and torqued all attachments.

-Installed 2ea. P/N MS29513-012 o rings to piston of fuel primer and reinstalled piston.

-Installed new firewall blanket for Cessna 172 manufactured and supplied by Airtex interiors.

Installed new carpet manufactured and supplied by Airtex Interiors.

-Installed new head liner manufactured and supplied by Aircraft Spruce and Specialty.

-Installed 2 ea. P/N0511242-1 seat stops to pilots seat rail.

-Installed nut plate P/N NAS1025-1032 to rear spar for right wing tank panel attachment.

-Installed 2 ea. P/N AN8-24A wing strut upper attach bolts and torqued.

-Installed new bolt P/N AN4-42A and new bushing P/N 0523221 to left aileron bellcrank. Torqued attachment.

-Installed new tow bar bolt P/N AN5-51A to nose gear and torqued.

-Installed new rod end P/N S1106-4 to forward end of right aileron push/pull rod. Torqued attachments.

-Installed 2 ea. P/N A6196-6Z-1 tinnerman nut plates to bulkhead at stn 205.81.

-Installed new fuel drain valve P/N CCA-1550 to base of fuel selector valve.

-Installed new left aileron pulley P/N S378-4 to upper door post location.

-Installed new left elevator pulley P/N S378-3 at stn 108.

-Installed 2 ea. new horizontal stabilizer attach doublers P/N 0512232-1to aft bulkhead (stn 205.81) using original type rivets. Reamed attach holes to size.

-Installed 2 ea. new vertical stabilizer doublers P/N 0512157-3 to aft bulkhead (stn 205.81) using original type rivets. Reamed attach holes to size

-Installed new fairing cap P/N 0530011-2 at right rudder cable exit.

-Aircrast seats and interior side panels upholstered with gray leather and carpeting(Carpeting supplied by Airtex interiors.).

-Plastic trim repaired by gluing and painted.

Work Order: 33040. Continued from previous page:

- -Removed battery box, lower box reinforce angle and upper attach angle. Removed corrosion from battery box and reinforce angle and treated area with bicarbonate of soda. Etched, Alodined, primed and painted with Randolf 344 acid proof paint. Fabricated upper attach angle from 2024T3 x 0.050" alclad, etched Alodined and primed. Removed corrosion from firewall shelf below battery box, primed and painted epoxy gray. Install 8 ea. P/N MS21047L08 nut plates to upper and lower battery box attach angles. Reinstalled upper attach angle using AN525-832 screws and AN363-832 nuts. Reinstalled battery box and reinforce angle using AN525-832 screws.
- -Firewall areas where engine/air controls and wire bundles enter resealed with P/N CMNP021CLASSB1/2 sealant..
- -Several areas of corrosion removed from cabin floor. Complete floor etched, Alodined and primed.
- -Removed left and right fuel tanks. Cleaned, flushed tanks and reinstalled using the following new parts: 4 ea. P/N AN520-1032R32 screws, 1 ea. P/N 0523554-1 gasket(left tank), 1 ea. P/N 0523554-2 gasket(left tank), 2 ea. 0523532 gasket, 2 ea. 0426013-1 gasket and 1 ea. P/N0523552-2 vent valve support tube(left tank). Connected vent hose lines and tightened clamps. Connected main fuel lines and torqued. Installed new union nut P/N AN816-6D to left wing tank vent lines, connected and torqued. Leak checked tanks and fuel system after installation. Reinstalled wing tank covers.
- -Relocated gascolator drain control from instrument panel to engine mount adjacent to oil filler as per later model aircraft. Fabricated support bracket from 2024T3 x 0.080" alclad and attached using 4 ea. P/N AN741-66B clamps. Cut control to required length and attached to gascolator drain valve using existing hardware and new spring P/N 0756002 Installed 2 ea. P/N 33-199-6 gaskets to gascolator bowl and 1 ea. P/N MS29513-007 to gascolator drain.
- -Repaired fuel selector support shaft support bracket by fabricating a new lug from 2024T3 x0.040" and attaching with Cherry Max rivets.
- -Repaired pilots and co-pilots seat lock pin guides by fabricating guides from 2024T3 x 0.040" alclad and installing with original type rivets.
- -Repaired crack in bulkhead (stn 205.81) adjacent to elevator pulley bracket by fabricating repair from 2024T3 x 0.040" alclad. Etched, Alodined, primed and installed using AN470AD4-xxx rivets. Reference for repair made to AC43.13-1B, figure 4-16 and table 4-9.
- -Removed top nose gear torque bolt and bushing. Cleaned, lubricated reinstalled, torqued and safetied.
- -Removed fuel selector, disassembled, cleaned, inspected and reassembled using the following new parts: 1 ea. P/N MS29513-010 o ring, 2 ea. P/N MS29513-012 o ring, 1 ea. P/N MS29513-111 o ring, 2 ea. P/N MS29513-116 and 1 ea. P/N 0513125 gasket. Reinstalled selector. Installed new shaft guide P/N 0511195 and installed shaft. Torqued all fittings.
- -Removed flap handle, cleaned off corrosion by bead blasting and applied Corvel black power coat. Reinstalled handle, attached cables and mounting bolts. Installed 1 ea. P/N 0510194-1 placard and 1 ea. P/N 0510188 placard to flap handle. Tensioned cables and rigged flap system as per service manual. Torqued all attachments and installed safeties.
- -Removed windshield, cleaned old felt seals and reinstalled using new felt seals and sealant. Lower retaining strap installed with 51 ea. AN525-832R7 screws and 51 ea. P/N AN365-832 nuts.
- -Fabricated upper aft elevator cable from 7 x19 galvanized cable (MIL-83420), 1 ea. P/N MS20664C4 ball end and 1ea. P/N MS1260-S4RH terminal.
- -Fabricated 2 aft rudder cables from 7 x19 galvanized cable (MIL-83420), 2 ea. P/N MS20668-4 eye end and 2ea. P/N MS1260-S4RH terminals.
- -Fabricated left and right aileron direct cables from 7 x19 galvanized cable (MIL-83420), 2 ea. P/N MS20668-4 eye end and 2ea. P/N MS1260-L4RH terminals. Installed cables, tensioned and rigged ailerons as per service manual. Torqued all attachments and installed safeties.
- -Fabricated vacuum filter support bracket attach angle for 2024T3 x 0.040. Installed 2 ea. P/N NAS1025-1032 nut plates to bracket. Etched, Alodined, primed and attached to firewall left of center line stn3.7 using AN515-832 screws and AN363-832 nuts. Installation made with reference to C172R Parts manual diagram 37-10-00 figure 4. Installed new vacuum filter support bracket P/N 1201075-4 using AN3-4A bolts.
- -Removed rudder, vertical stabilizer, elevators and horizontal stabilizer for repairs.
  - -Horizontal stabilizer. Installed new stop plate bracket P/N 0532006-1. Installed new right inboard nose rib P/N 0532001-50. Repaired inboard right side leading edge skin by removing damaged 4.5" section. Fabricated skin section from 2024T3 x 0.32" alclad and doubler from 2024T3 x 0.040" alclad. Etched, Alodined, primed and installed using original type rivets. Reference for repair made to Cessna service manual D367-13, chapter 19, figure 19-9. Repair painted to match original paint.
  - -Left Elevator. Disassembled left elevator, cleaned and inspected. Etched, Alodined and primed all parts to be reused. Reassembled elevator using the following new parts: 1 ea. skin P/N 0532001-89, 1 ea. skin P/N 0532001-91 and 1 ea. tip P/N 0532001-94-791. Rivets used were of original type. Painted elevator to match aircraft and checked static balance as per service manual.
  - -Right Elevator. Disassembled right elevator, cleaned and inspected. Etched, Alodined and primed all parts to be reused. Reassembled elevator using the following new parts: 1 ea. skin P/N DEV055044-2, 1 ea. skin P/N DEV055044-4 and 1 ea. tip P/N 0532001-100-791. Rivets used were of original type. Painted elevator to match aircraft and checked static balance as per service manual.

Work Order 33040:	Continued from	previous page:
-------------------	----------------	----------------

-Rudder. Repaired worn holes in rudder horn by reaming and installing bushings. Installed rudder nav light connectors 1 ea. P/N S1637-1 and 1 ea. P/N S1637-2. Removed upper and lower bottom hinge brackets. Installed new upper hinge bracket P/N 0531018-2 and new lower hinge bracket P/N 0531018-1 using original type rivets. Installed new rudder weight support rib P/N 0531006-62 and reinstalled weight and fairing. Replaced left and right side rivets in upper rudder bracket.

-Vertical stabilizer. Removed lower stabilizer attach fitting. Installed new lower fitting P/N 0531006-113 using original type rivets. Repaired upper aft rib by fabricating rib from 2024T3 x 0.020" alclad. Etched, Alodined, primed and installed using original type rivets. Installed new wiring for rotating beacon.

## Reinstallation.

- -Horizontal stabilizer reinstalled using the following new parts: 1 ea P/N AN5-9A and 2 ea. MS21042L5 nuts. Installed 2 ea. new elevator trim pulleys P/N S378-1L in stabilizer. Torqued attachments.
- -Vertical stabilizer reinstalled using the following new parts: 2 ea. P/N AN5-4A bolts, 2 ea. AN5-10A bolts and 4 ea. MS21042L5 nuts. Torqued attachments.
- -Left and right elevators reinstalled using the following new parts: 4 ea. P/N AN4-11A bolts, 3 ea. P/N AN4-14A bolts and 7 ea. P/N MS2104214 nuts. Bolts torqued. Installed 2 ea P/N NAS428H3A16 elevator stop bolts. Reconnected cables, tensioned and rigged elevators as per service manual. Installed new elevator trim chain P/N S2295-25-67, 2 ea. P/N S2294-25 links and reinstalled elevator trim cable, tensioned, rigged and set stops as per service manual. Torqued all attachments and installed safeties.

Total Time 3024.24

has been inspected in accordance

I certify

-Rudder reinstalled using 3 ea. P/N AN4-11A bolts and 2ea. P/N MS2102L4 nuts. Connected cables, tensioned and rigged rudder system as per service manual. Torqued attachments and installed safeties.

-Aircraft weighed. New Empty Weight: 1499.0 lbs, New Useful Weight: 801.0 lbs, New C.G. 37.47" witch Includes have a construction of the construct

REC. HR. METER

ENGINE OIL PRESSURE INDICATION IS HIGH-INSTALLED SECONDARY CLIBRATED TEST GAUGE AND TESTED THE ENGINE OIL PRESSURE VS INDICATED. FOUND INDICATION WAS 100 PSI WHEN ACTUAL WAS 62 PSI. REMOVED THE GAUGE AND TESTED WITH A DEAD WEIGHT TESTER AND VERIFIED THE GAUGE WAS VERY INACCURATE. NOTED THE GAUGE WAS REMARKED AND FOR THE DRIGINAL AIRCRAFT CONFIGURATION WITH AN 0-300 TCM ENGINE ORDER AND INSTALLED AN DIL PRESSURE GAUGE P/N 2646-00049

FOR USE WITH A LYCOMING EQUIPED 172 WITH CORRECT RANGE MARKINGS FOR USE WITH THE AIR PLANES 0-360 MODIFIED AIRCRAFT TESTED THE GAUGE PRIOR TO INSTALLATION AND FOUND INDICATION WAS CORRECT. GROUND RAN AND TESTED THE INDICATION AND FOUND CORRECT.

THE AIRCRAFT, ENGINE, APPLIANCE, OR COMPONENT IDENTIFIED WAS REPAIRED & INSPECTED IN ACCORDANCE WITH CURRENT REGULATIONS OF THE FEDERAL AVIATION AGENCY AND IS APPROVED FOR RETURN TO SERVICE. PERTINENT DETAILS OF THE REPAIR ARE ON FILE AT THIS REPAIR STATION UNDER W.O. #164345 DATE MARCH 18, 2008 For
