

The 90 x 48 x 50 extended-length collapsible bulk container is a state-of-the-art material handling containers engineered for long life under tough conditions and repeated use. This bulk container offers superior quality and value. Made from high-density polyethylene, the 1,200 lb.-capacity, heavy-duty container is built to provide years of service under the toughest conditions. The 90 x 48, 50 height container is stackable, easy to assemble and knock down, 100% recyclable, and reduces on storage and transportation costs. It has pallet jack and 4-way forklift access for secure and efficient handling. Drop gates on the 48 sides allow for easy access to contents. This collapsible bulk container is ideal for storing and handling a variety of large component parts, industrial materials, and commercial supplies. Black color. Optional lid.

Part #: DGX904850-2

Special Features

Interlocking Walls

Interlocking sidewalls at the corner of the container ensure high load capacity and stability.

Spring Loaded Latches

Ergonomic spring loaded latches provide a quick and reliable locking mechanism for both access doors and collapsing sidewalls.

Open Grid Floor

Open grid floor provides extra strength; lowers shipping weight and conforms to manufacturing facility fire codes.
