

PRODUCT INFORMATION

Part #: DGP-4048-NP

Product Category: Plastic Pallets

The 40" x 48" plastic pallet offers outstanding economy along with its strength and durability. The space saving stacking feature and its lightweight combine to reduce a shipper's cost per trip. This produces the ultimate benefit, a quick return on investment. A lightweight, reusable, nine-leg, 4-way entry, twin sheet pallet. Manufactured from BA50-100, high-molecular weight, high-density polyethylene co-polymer for maximum product performance.

Overall Length	48"	Center Leg/Length	5.9"
Overall Width	40"	Overall Fork Opening/Length	29.9"
Overall Height	6.5"	Fork Opening/Width	12.05"
Fork Opening/Height	4"	Center Leg/Width	5.9"
Fork Opening/Length	12"	Overall Fork Opening/Width	30"

- Truckload Quantity: 1200 Pallets (53' x 98' x 110') 30 Stacks of 40 Pallets
- Truckload Quantity: 1120 Pallets (48' x 98' x 110') 28 Stacks of 40 Pallets
- Dynamic Load: 2,000 lbs.
- Beveled bottom edge allows for easy de-stacking
- New shock absorbing perimeter design virtually eliminates side splitting due to the rigors of side impact and fork truck handling
- Four-way fork entry for ease in handling with Fork Trucks and Pallet Jacks
- Lightweight
- Nestable which results in reductions in warehousing costs and freight costs
- Drain holes in legs to ease in cleaning and deter any collection of liquid
- Easy to clean deck surface
- Impervious to weather – including extreme heat or cold and UV Ray protection
