

Ball Lock Couplings

Sockets for Gas

4066	with 6mm Inline Hose Tail with 10mm		
4099	Inline Hose Tail with 12mm Inline		
4509	Hose Tail with 6mm & 10mm Inline		
4126	Hose Tail with 6mm & 10mm Offset		
4170	Hose Tail		

Sockets for Liquids

4068	with 6mm Inline Hose Tail		
4299	with 10mm Inline Hose Tail		
4080	with 12mm Inline Hose Tail		
4128	with 6mm & 10mm Inline Hose Tail		
4397	with 6mm & 10mm Offset Hose Tail		

Specialised Sockets for Liquid and Gas

13250	Socket for Gas with 10mm Inline Hose Tail - Full Stainless Steel		
13682	Socket for Gas with 6mm Inline Hose Tail - Full Stainless Steel		
12117**	Socket for Gas with M8 hose connection adaptor		
13347**	Socket for Liquid with M8 hose connection adaptor		
**	Socket for Gas with M10 hose connection adaptor		
13200	Socket for Gas with 1/8" NPT hose connection adaptor		
	Socket for Liquid with 1/8" NPT hose connection adaptor		
13970	Socket for Gas with 1/8" BSP hose connection adaptor		
13971	Socket for Liquid with 1/8" BSP hose connection adaptor		

** Min Order Qty applies

Turret Ball-Lock Liquid Socket with 6mm Inline Hose Tail.

Turret Ball-Lock Gas Socket with 6mm/10mm offset Hose Tail.

Bayonet Lock Couplings

Sockets for Gas – 2 pin

2140	with 6mm Inline Hose Tail		
2139	with 10mm Inline Hose Tail		
2144	with 12mm Inline Hose Tail		
2210	with 6mm & 10mm Offset Hose Tail		

Sockets for Liquids – 3 pin

2141	with 6mm Inline Hose Tail		
2179	with 10mm Inline Hose Tail		
2145	with 12mm Inline Hose Tail		
2191	with 6mm & 10mm Offset Hose Tail		

Turret Bayonet Gas Socket with 6mm Inline Hose Tail.

Specialised Fittings

13468**	TAIL PIECE, 6mm with 1/2" BSP (Female)		
13469**	TAIL PIECE, 10mm with 1/2" BSP (Female)		

Tail piece with 1/2" BSP (female) with 10mm Hose Tail.

Pressure Relief Valves

6494	Pressure Relief Valve (650kPa / 95Psi)		
------	--	--	--

PressureReliefValve

PLEASE NOTE:

- ALL FITTINGS CAN BE SUPPLIED IN FULL STAINLESS STEEL (P.O.A)
 - VARIOUS COMBINATIONS OF FITTINGS ARE POSSIBLE
- IF A PART YOU REQUIRE IS NOT LISTED ABOVE, WE WILL BE HAPPY TO DISCUSS YOUR NEEDS

LEGEND:

All Sockets:

Gas = White Band
Liquid = Black Band

Ball-Lock Plugs:

Gas: = Grooved
Liquid: = No Groove

Bayonet Plugs:

Gas: = 2 Pin
Liquid: = 3 Pin

Plugs to suit Ball Lock and Bayonet Couplings

Ball Lock Plugs for Gas

4062	with 1/2" BSP Thread (Mytton,Rheem)		
4082	with 9/16" UNF Thread (Firestone & Spartanburg)		
4162	with 0.594" UNF Thread (Cornelius)		
13482	with 5/8" BSP Thread (female)		
13609	with 1/2" BSP Thread (female)		

Turret Ball lock for Liquid with 9/16" UNF thread (female).

Ball Lock Plugs for Liquid

4064	with 1/2" BSP Thread (Mytton,Rheem)		
4083	with 9/16" UNF Thread (Firestone & Spartanburg)		
4164	with 0.594" UNF Thread (Cornelius)		
13483	with 5/8" BSP Thread (female)		
13620	with 1/2" BSP Thread (female)		

Bayonet Plugs for Gas – 2 pin

2142	with 1/2" BSP Thread (Mytton, Rheem)		
4262	with 9/16" UNF Thread (Firestone & Spartanburg)		
5236	with 0.594" UNF Thread (Cornelius)		
2242	with 2 Grooves (ChallengeV)		
3242	with 4 Grooves (Model F)		

Turret Bayonet plug for Liquid with 1/2" BSP thread (male).

Bayonet Plugs for Liquid – 3 pin

2143	with 1/2" BSP Thread (Mytton, Rheem)		
4264	with 9/16" UNF Thread (Firestone & Spartanburg)		
5238	with 0.594" UNF Thread (Cornelius)		
2243	with 3 Grooves (ChallengeV)		
3243	with 4 Grooves (Model F)		

Service Kits

Catalogue Name:

Job No.:	Catalogue Name:		
11050	Seal Kit for Ball Lock Sockets (Socket Seal, Valve Seal, Circlip)		
11053	Service Kit for Ball Lock Plug 1/2" BSP (Valve Seal, 'O' Ring, Circlip, Tank washer Seal)		
11263	Service Kit for Ball Lock Plug UNF (Valve Seal, 'O' Ring, Circlip, Tank washer Seal)		
11051	Seal Kit for Bayonet Lock Sockets (Socket Seal, Valve Seal)		
11054	Service Kit for Bayonet Lock Plug 1/2" BSP (Valve Seal, 'O' Ring, Circlip, Tank washer Seal)		
11262	Service Kit for Bayonet Lock Plug UNF (Valve Seal, 'O' Ring, Circlip, Tank washer Seal)		

Spare Parts For Sockets & Plugs

Job No.:	Catalogue Name:		
13440	O'Ring for BallLockPlugs	-pack of 20	
13441	O'Ring for BayonetPlugs	-pack of 20	
13442	Socket Valve	-pack of 5	
13443	Backing Sleeve	-pack of 10	
13444	Plug Valve	-pack of 5	
13445	Six Hole Washer	-pack of 10	
13446	Valve Spring	-pack of 10	
13447	Valve Seal	-pack of 10	
13448	Sleeve - WhitePlastic	-pack of 5	
13449	Sleeve - BlackPlastic	-pack of 5	
13618	Tank WasherSeal(1/2"BSPPlugs)	-pack of 10	
13619	Tank WasherSeal(NonBSPPlugs)	-pack of 10	
2961	6mm HoseTail		
2962	10mm HoseTail		
4508	12mm HoseTail

OneFab - Your local support partner.

Turret Two-Way Shut-Off Couplings are suitable for use with liquids and gases such as beverages, CO2 and compressed air.

Typical applications are:

- Connecting bulk beverage containers (soft drinks, wines, beers, etc.) to pressurised dispensing systems.
General purpose connection of liquid and gas lines to central supply systems, such as air tools to compressed air lines.

When used for dispensing beverages, the connection for the pressurising gas (inlet) is made using the 'gas' coupling. The outlet is connected using the 'liquid' couplings. By design, incorrect (cross) coupling is not possible. The socket couplings have colour coding for ease of identification – black for liquids, whites for gases.

No Spillage

All Turret are two-way shut-off couplings designed to ensure there is no spillage (leakage) in the process of coupling and uncoupling.

Coupling Systems

The couplings are offered in two styles of easy engaging systems, ball locking or bayonet locking.

Mounting Turret Plugs are available to fit tanks with 1/2" BSP (male), 0.594" UNF (female) and 9/16" UNF (female) threads types to suit Rheem, Mytton Rod, Cornelius, Firestone and Spartanburg kegs and fittings.

Australian Designed and Made All couplings are designed and manufactured in Australia by Albury Precision Engineering. Comprehensive spares and service facilities are available from the manufacturer to ensure all couplings provide years of reliable service.

Product Modification Albury Precision Engineering is only too willing to assist in the design and/or modification of its products to suit particular end user requirements. Please ask our sales staff for information.
