Wells
a Vikan company

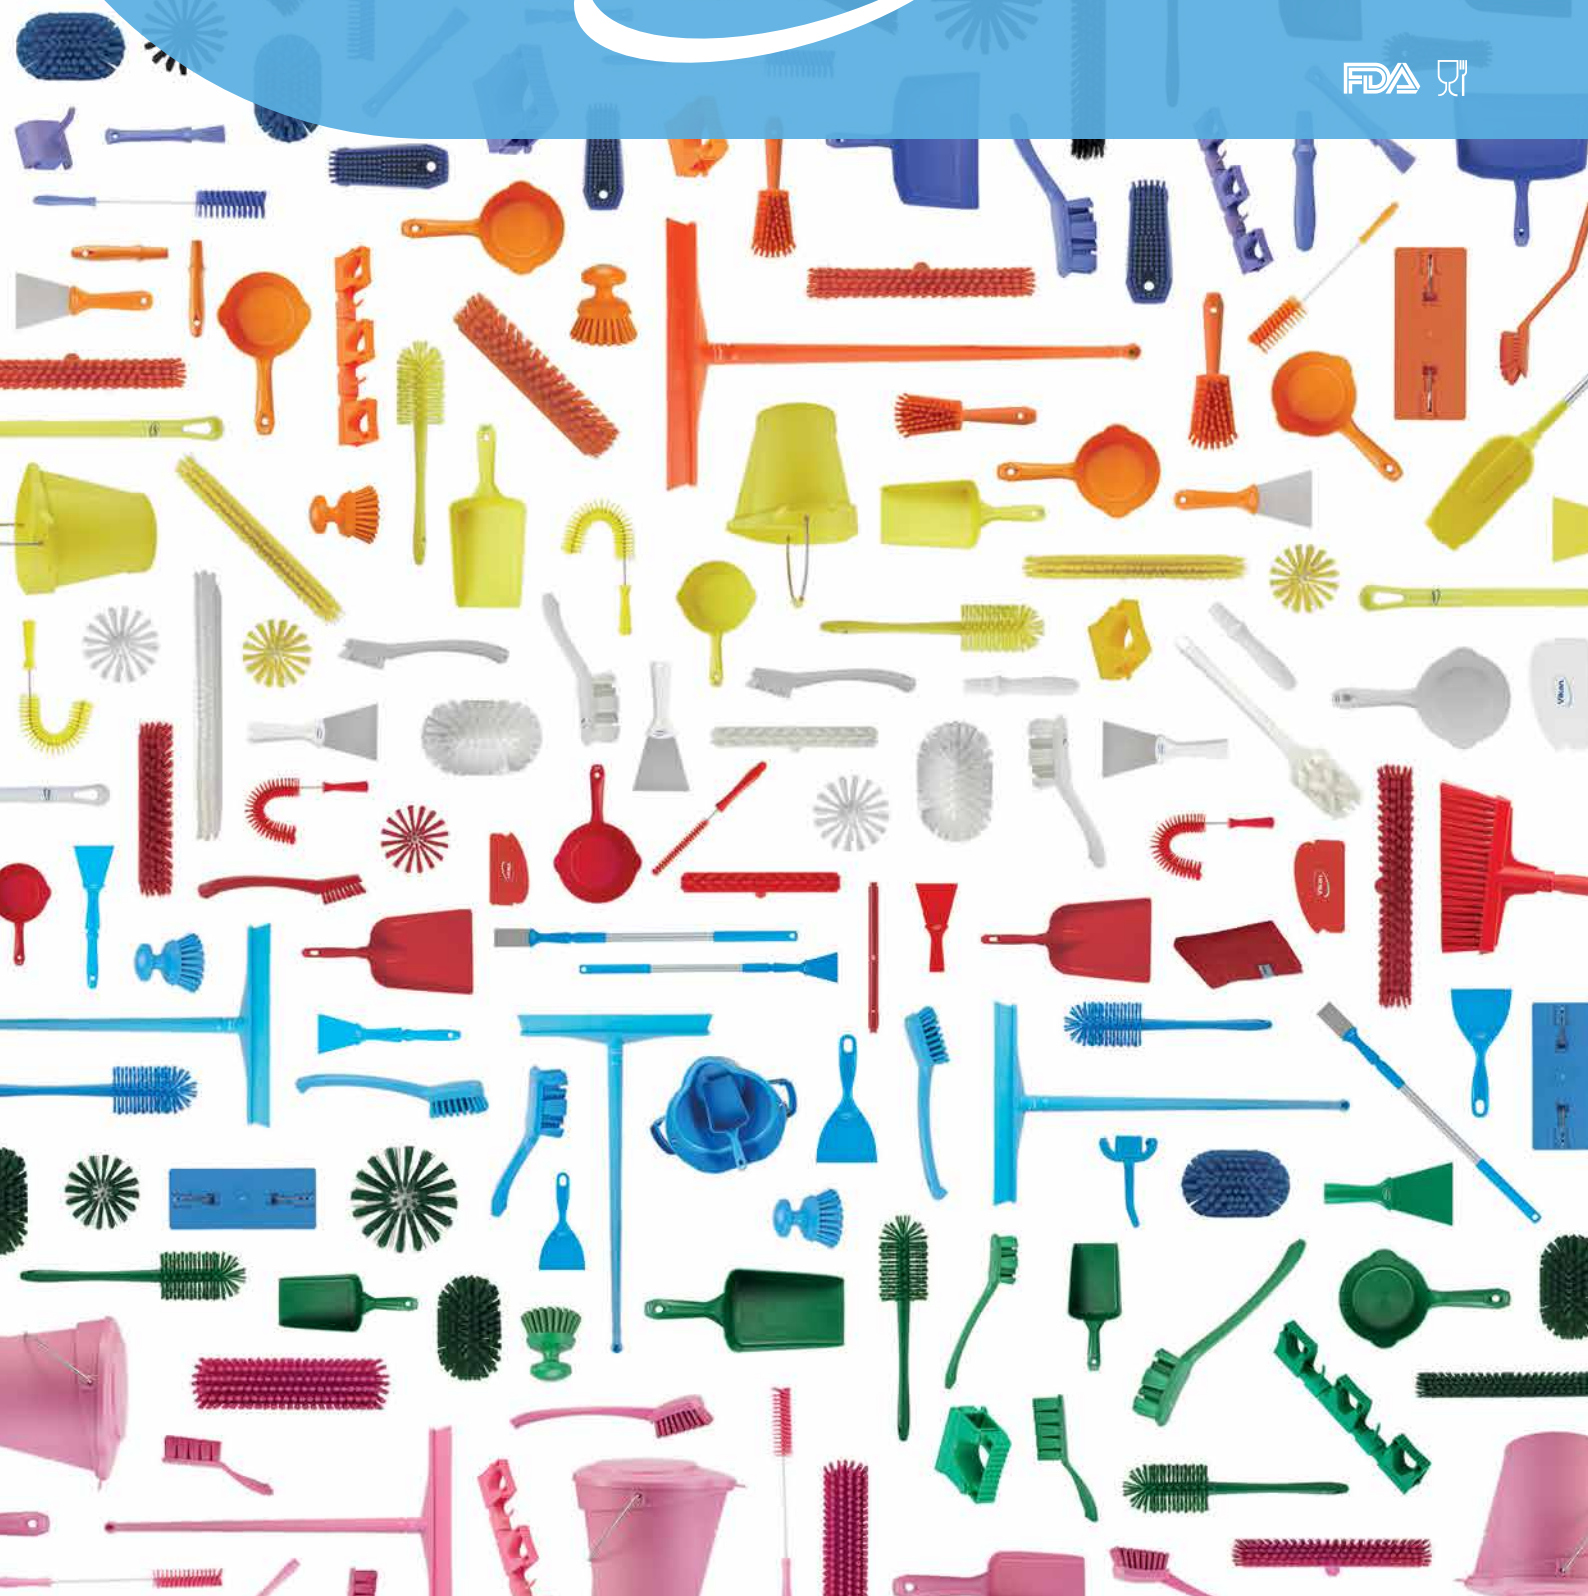

HYGIENIC CLEANING TOOLS & STORAGE SOLUTIONS

Helping you keep
food production and
other hygiene-sensitive
environments cleaner
and safer.

Innovation that starts with **you**

At Vikan, we innovate to solve the challenges you face. To make sure we do this, we always incorporate customer views into our product development processes. Our aim is to get every product just right – the way you want it.

About Wells

When you choose Wells, you're investing in the most effective hygiene risk management program and products to protect your customers and your business.

For more than 95 years Wells has supplied the highest quality products to the food processing, manufacturing, healthcare and dairy industries throughout Australia and New Zealand.

Wells, now part of the global Vikan group of companies, supply the world's most comprehensive hygiene system through colour coded cleaning equipment and food handling tools.

We also supply Vikan's microfibre cleaning systems and the amazing Vikan vehicle/transport cleaning range, critical for cleaning food transport vehicles.

Wells were the first in Australia to introduce the BST Detectable Products range to help our customers manage the risk of foreign object contamination in the food processing and manufacturing environment.

With a focus on Lean Manufacturing, GMP and continuous improvement, Wells can also assist companies large and small with their 5S program with an extensive array of custom signage and storage systems.

When you choose Wells, you're buying more than hygiene and food safety products, you're investing in the most effective risk management program, backed by Wells and Vikans' highly experienced teams.

Wells commitment to you

- ✓ **Accessible technical staff located throughout Australia and New Zealand**
- ✓ **Continually improve our cleaning product range to meet hygiene challenges**
- ✓ **Develop hygiene systems which can be customised for any size operation**
- ✓ **Assist businesses to achieve compliance through cost effective solutions**

Built to perform

Based in Denmark, Vikan manufactures the most comprehensive 'manual cleaning and food handling system' in the world.

Vikan is the world's leading supplier of hygienic cleaning tools for the food and beverage industry and other hygiene-sensitive environments.

With headquarters in Denmark and over a century of experience, Vikan has amassed the industry's biggest bank of hygiene and regulatory insights, and used this to develop the world's most effective professional cleaning tools and advisory services. All to make sure that Vikan's customers can deliver each and every product they manufacture with pride and confidence.

When you do business with Wells/Vikan, you can count on a hygiene partner that is acknowledged worldwide for professional tools, expert advice, functional design, superior quality and a pioneering spirit.

DECLARATIONS OF COMPLIANCE

Vikan cleaning tools comply with all EU and FDA requirements pertaining to food contact. Conducted by an independent accredited laboratory, Vikan migration analysis testing makes sure toxic components aren't transferred from the cleaning tools to food products.

Vikan issue Declarations of Compliance for all food-grade Vikan products, ensuring that you can meet your due diligence requirements.

A history of **firsts**

Did you know that all these industry breakthroughs, some of which are now industry requirements, **were invented by Vikan?**

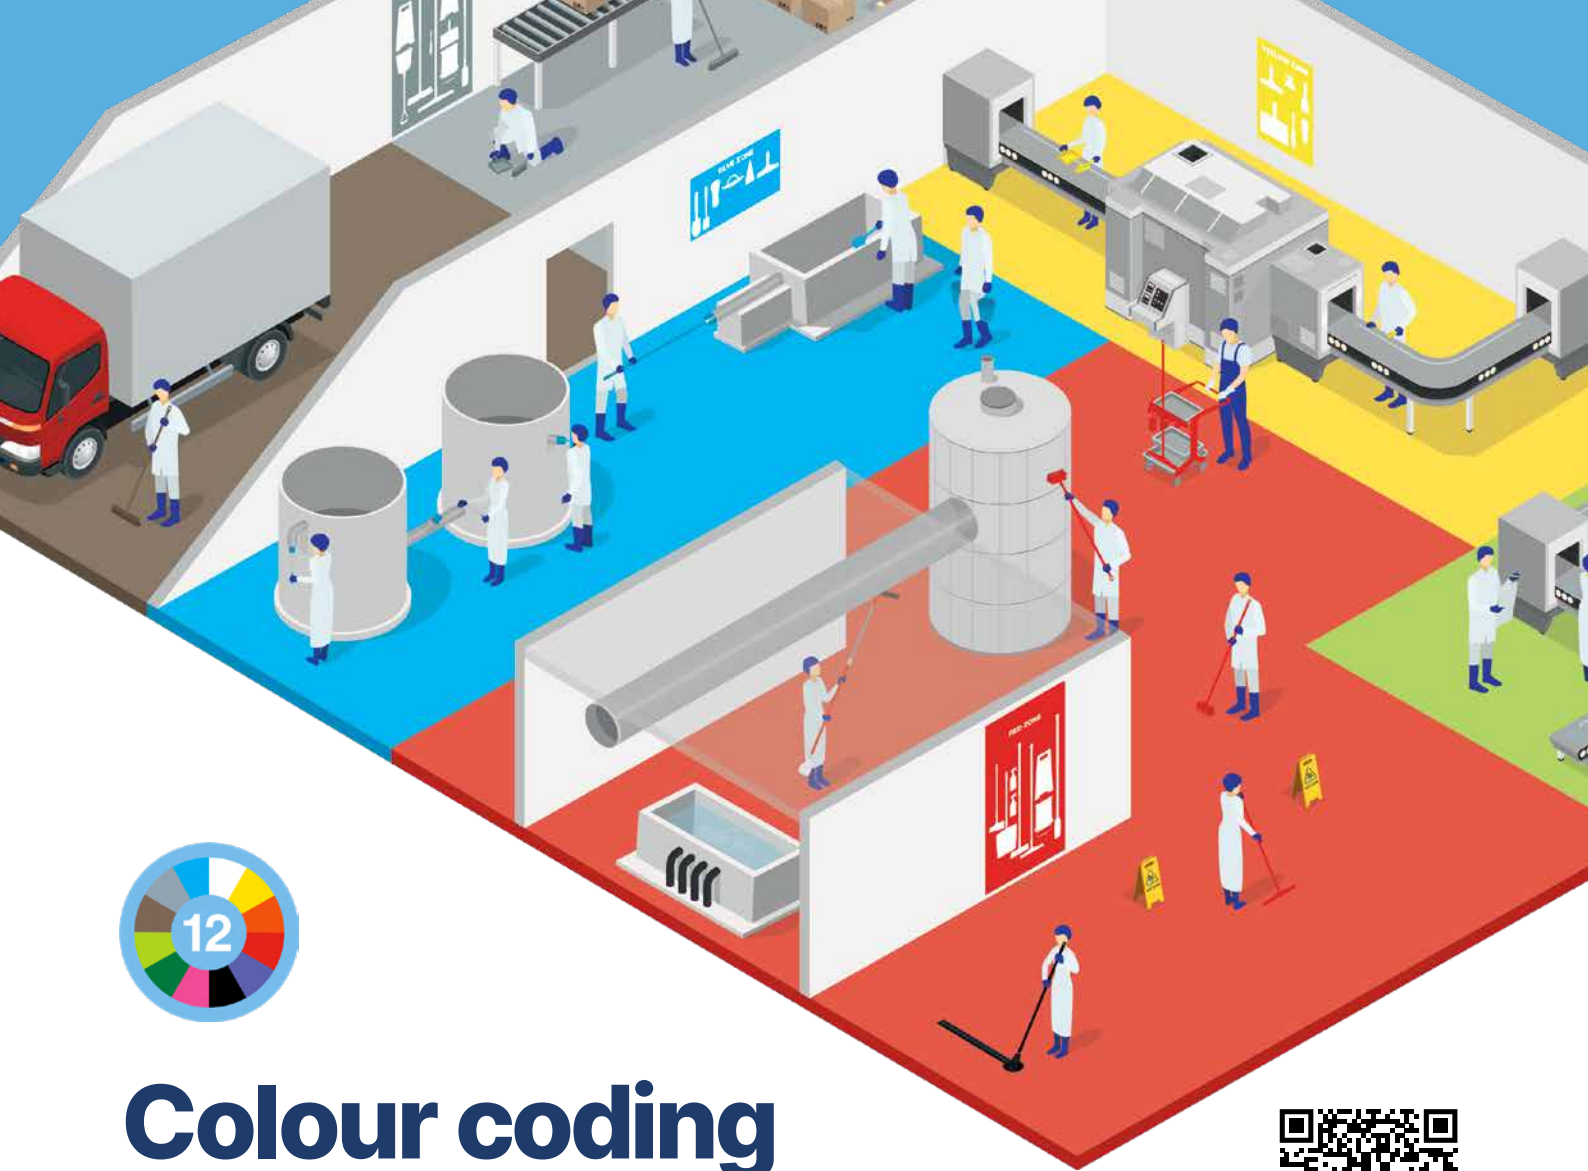

Colour coding: for hygienic segregation of cleaning tools.

Hygienic design: to make sure cleaning tools stay contaminant-free.

Ultra Safe Technology: the new standard for hygienic design of food industry brushware.

Colour coding more products, more colours

[Learn More](#)

Vikan and Wells were the first to introduce colour coded hygiene and food handling equipment to the Australian & NZ food manufacturing and processing industry.

The primary purpose of colour coding is to help prevent cross contamination. Cross contamination can occur as a result of physical factors, chemical, microbes and allergens, amongst many others. Most Vikan products are available in up to 12 colours to enable your cross contamination management program.

The colour-coded Vikan Hygienic range meets all your needs for colour-coded cleaning tool segregation, and ensures compliance with HACCP requirements as well as food safety standards that include FSSC 22000, BRC, IFS and SQF.

How it works

Colour-coded segregation helps minimise the risk of product cross-contamination from microbes and food residues, including allergens, chemicals and foreign bodies. It works by assigning cleaning tools a specific colour for use in specific areas and/or for specific tasks.

For example, red tools can be used in high-risk areas, and yellow ones in low-risk areas. Blue tools could be used to clean surfaces that come in contact with food, while green ones could be used for cleaning floors. This makes it easy to identify whether tools are in the wrong area, or are being used for the wrong task.

Strengthen your Vikan colour coding plan, with a **customised Wells 5S Shadow Board System**

Benefits

- ✓ Easy to identify
- ✓ Helps prevent cross-contamination
- ✓ Always organised
- ✓ Less equipment lost
- ✓ Greater hygiene
- ✓ Safe and efficient
- ✓ Increased production efficiency

Fully Customised

Wells Bespoke 5S Shadow Board Systems provide a clear and intuitive visual management solution that enhances workplace safety, organisation, and operational efficiency while helping to prevent cross-contamination.

Every system includes a fully customised shadow board layout, meticulously designed in partnership with you to accommodate the precise requirements of your hygiene cleaning tools, equipment, and workspace.

VIKAN FACT

Wells is part of the Vikan group of companies. So when you choose Wells, you are supporting the great work of the Vissing Foundation.

The Vikan company is 90% owned by a charitable foundation called the Vissing Foundation. Profits are used and largely donated for medical research and healthcare, ongoing product development and research related to hygiene and the environment. Just another great reason to choose Vikan.

Broom Selection Guide

BRISTLE	Extra Stiff	Soft/Stiff Combo	Medium	Soft/Split	(UST) Ultra Safe Technology
NOTES	Helps move large stubborn soil from rough floor surfaces. Can be used in wet or dry cleaning.	The 'All Rounder' for medium and small soils. Used most effectively in 'push' motion. Can use in wet or dry cleaning.	Used for finer particles and soils on smoother floor surfaces. Mainly used in dry cleaning.	Mechanically split bristle ends are excellent on powders and dry cleaning applications.	The ultimate for critical care cleaning applications, dry or wet.

Ultra Safe Technology A Hygiene Revolution

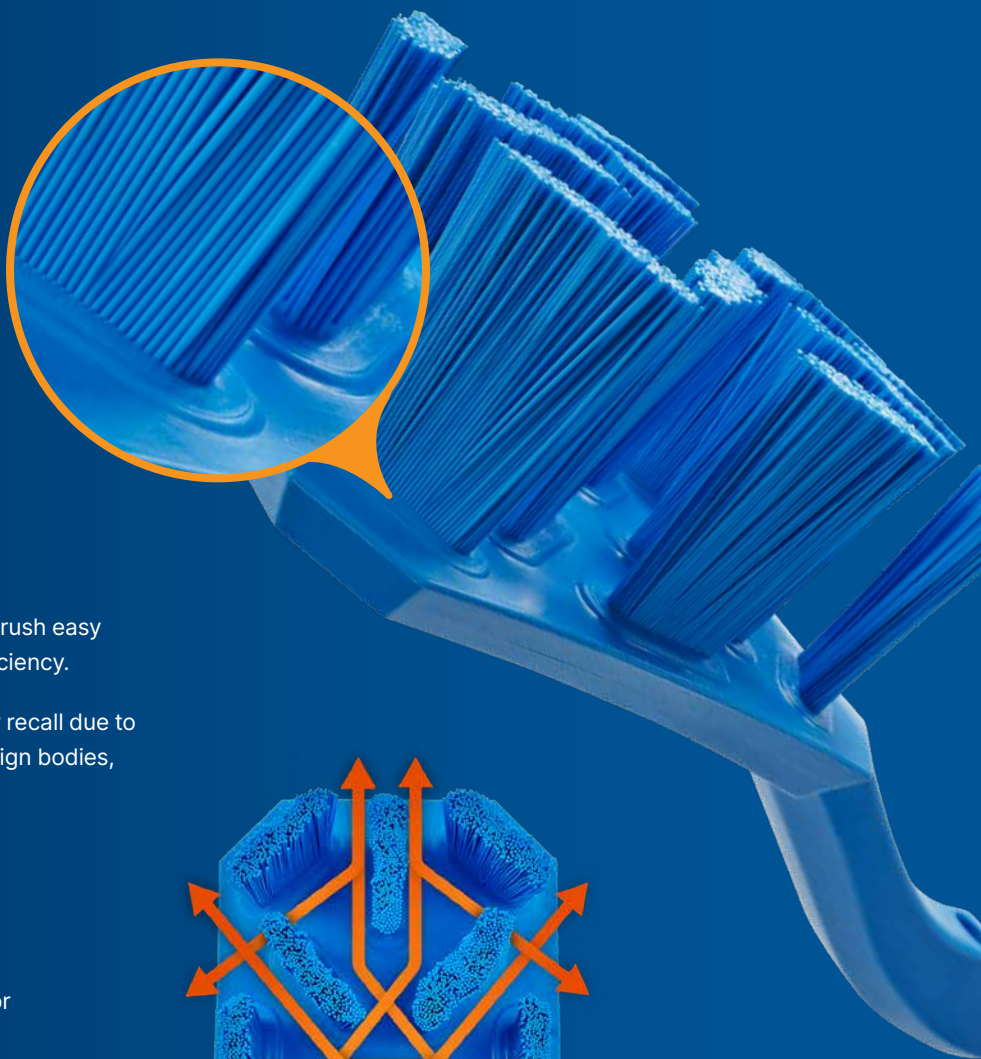

ULTRA SAFE TECHNOLOGY (UST) is part of Vikan's ambition to create the most secure, safe and hygienic cleaning tools for the food and beverage industry.

UST

Safest Filament Security System

- The new Filament Security Units are fully moulded as an integral part of the brush, effectively making it a one piece brush.
- The unique positioning of the filaments means the brushes clean brilliantly well.
- This feature minimises the risk of loose filaments, and thus, the potential for product rejection, recalls and waste.

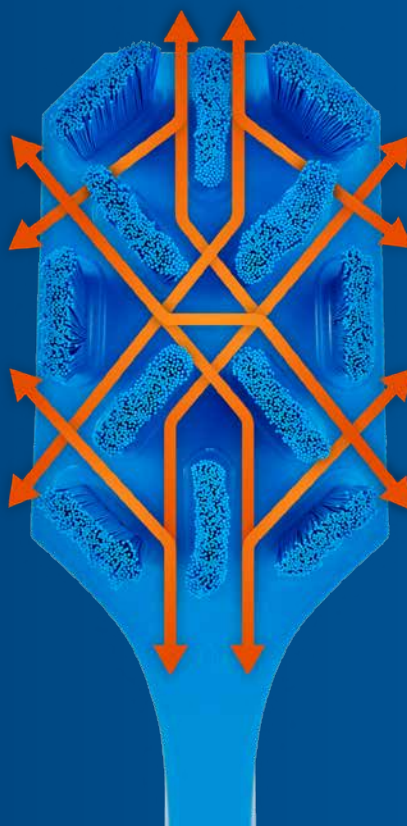

Hygienic Design Super Easy to Clean

- The unique brush head pattern makes the brush easy to clean and dry and improves cleaning efficiency.
- This reduces the risk of product rejection or recall due to contamination from microbes/bacteria, foreign bodies, cleaning chemicals and allergens.

Superior Technology A Safer Choice

- Vikan UST brushware provides a far superior alternative! Why?
 - ✓ The unique UST technology minimises the risk for contaminants and bacteria to collect and grow.
 - ✓ UST brushes are easy to clean, sanitise and inspect, resin set brushes are not.
 - ✓ UST is fully compliant with EU food contact legislation.
 - ✓ UST brushes are fully colour coded, resin set brushes are not.

Video

Scrubs & Brushes, Floor & Wall

PRODUCT CARE

Always remember to hang up your broom after use on a good quality wall bracket system. Then wash, rinse, sanitise and air dry at the end of the day. You can also use hot water to straighten the bristles and extend the life of your broom.

Designed for areas where both high levels of hygiene and effective water removal is required, this squeegee can be used on all types of surfaces, including tiled and safety flooring.

How to change a squeegee cassette...

Don't let your squeegees become unhygienic. Vikan's '2C' and 'Classic' Squeegees have a unique rubber cassette replacement system.

So keeping your Vikan Squeegee clean and functional is easy as 1, 2, 3....

Note: Wells recommends cleaning the squeegee body before inserting the new cassette.

Press locking tabs on ends of squeegee

Slide out old cassette and dispose

Lineup cassette with squeegee

Insert cassette and snap into squeegee

-

Designed for removing water and waste while maintaining high levels of hygiene.

Effectively remove both water and food debris from food preparation surfaces.

HYGIENIC DESIGN

The ultra hygienic fully moulded single bladed hand squeegee removes all water and soils, and features a soft flexible blade which is easy to keep completely clean.

Video

Excessive condensation becomes droplets that contaminate your product.

Video

By placing the squeegee blade against the ceiling or pipe and pulling towards you, the condensation will not only be removed from the surface but also collected safely in the condensation bottle or drained away through the telescopic handle with draining hole.

Hand Brushes, Scrubs, Specialty Brushes & Bakery

Vikan XL Solid Hand Brush (Peanut Brush)

Product code: 28/3894 + colour
See Page 25.

Our updated XL Hand Brush – a favorite in the meat and dairy industries – features a large 29mm solid block with stiff bristles and a unique “butterfly” shape for superior ergonomic grip, even with wet, greasy, or chemical-covered hands.

Ideal for food processing and hygiene-critical areas, its smooth, angle-free surfaces and sloped hanging hole ensure easy cleaning and drainage. Perfect for scrubbing tanks, tables, conveyor belts, buckets, and hard-to-reach corners quickly and effectively.

 **Video**

Seriously Better Brushes

Efficacy. Productivity. Ergonomics. Compliance.

Meet every need with Vikan's new set of mission-optimised hand brushes. A complete set of hygienic, ergonomic handheld washing and scrubbing brushes for the food and beverage industry.

Solid Hand Scrub Brushes

Vikan's XL "Peanut" Brush

This brush is a 230mm handheld scrubbing brush with extra stiff and sharply angled filaments. The updated "butterfly" design offers a more ergonomic grip. Designed for use in the food industry including meat and poultry processing.

Materials:	PP, PBT	PP, PBT	PP, PBT
Temperature:	121 °C	121 °C	121 °C

Upright Dustpan & Broom Set

This dustpan has a contact lip for easy sweeping, raised front edge to prevent spillover, enlarged rear/side walls for more capacity. The lightweight broom handles dry/wet debris with dual bristles (soft outer for pickup, stiff inner for efficiency), angled tips for corners/under furniture, and built-in scraper for stubborn dirt.

Product Code:	28B/5666 + colour
Replacement broom handle:	28/2913 + colour
Replacement brush:	28/3103 + colour
Dimensions:	200 x 88 x 330mm
Bristle:	58mm
Materials:	PP, AA, PBT
Temperature:	121 °C

Compact Lobby Dustpan & Broom Set

When you need a food-safe commercial dustpan set and you're short on space, reach for the Vikan Compact Lobby Dustpan Set. Even though it's smaller, this upright dustpan set with a locking lid, broom, and broom clip still includes the same great features as the larger version, which is popular in janitorial, food manufacturing, and food retail businesses.

NEW

Product Code:	28B/5657 + colour
Dimensions:	H 1060mm x D 100mm x W 295mm
Volume:	6 litre
Materials:	PP, AA
Temperature:	121 °C

Heavy Duty Lobby Dustpan & Broom Set

Closable to ensure large amounts of soil and debris can be disposed of safely without spillage. The brush "nests" inside the closable dustpan for greater hygiene & control. Sweep up and collect dry and moist debris in the same smooth, even movement. Angle-cut broom head features two kinds of bristles, and the closable dustpan has a solid contact lip to gather up debris easily and effectively.

Product Code:	28B/5665+
Dimensions:	850 x 160 x 1120mm
Volume:	9 litre
Bristle:	57mm
Materials:	PP, PBT
Temperature:	121 °C

HyGo™ Mobile Cleaning Station

You'll love HyGo.™
Maybe a little too much.

Beyond elevating cleaning efforts, Vikan's HyGo also conquers space challenges, lost equipment, and wasted time. HyGo easily navigates tight spaces like doorways with its narrow frame and 360-degree wheels.

- › The top tray is designed for easily mounting tool brackets on the front and/or the back of the cart
- › You can configure the tool modules to suit your facility, and easily change them as needed
- › Up to 12 tools can be mounted on the HyGo with the purchase of additional tool brackets
- › The upper tray can carry up to 12 kgs and the lower tray can carry up to 20 kgs.
- › HyGo can be disassembled, and the individual parts can be dry cleaned or wet cleaned.

HyGo Mobile Cleaning Station

Product Code:	28/5700 + colour
Dimensions:	780 x 530 x 1030 mm
Materials:	PP, SS, RB, Brass
Temperature:	93 °C

What's included

- › Tool Bracket Set:
2 x Grip band modules
and 3 x Hooks
- › Middle tray
- › Bottom tray
- › Top tray
- › Handlebar
- › 2x side bars
- › 2x wheels with lock
- › 2x wheels without lock
- › Tool for assembly
- › 4x M10 55 mm bolts
- › 4x M10 washers
- › 8x M8 35 mm bolts
- › 8x M8 washers

**Cleaning and food handling tools not included with the purchase of HyGo.*

Detectable High Temp Teflon Tape

- Enables any foreign heat sealing tape in product to be detected
- Fine particles of metal embedded in the Teflon
- Teflon coating provides non-stick surface to heat seal against

Detectable High Temp Teflon Tape

Product Code:	57/MDHST
Dimensions:	30m x 75mm
Materials:	Silicone
Temperature:	-73 to +260 °C

* Detectability of the tape may depend on calibration settings
of the detector and the product being processed.

HYGIENIC DESIGN

High temperature food grade brushes are excellent for cleaning grills and hot plates. They're also ideal for cleaning sealing jaws on filling machines, which greatly reduces the risk of bad seals on bags and foreign objects.

Tube Brushes

Tube & Pipe Cleaning Brush

Product code: 28/5356 + colour. See Page 36.

This versatile Tube Brush is designed for cleaning pipes found in dairies, breweries and the fishing industry. Can be used with Vikan Flexible Rods 28/53515 and 28/53520. See Page 36.

 **Video**

Tube Brush Selection Guide

BRISTLE TYPE	Diameter Ø	Pipe Length	Handle Type	External Pipeworks
NOTES:	Measure the internal diameter of the pipework to be cleaned.	Work out the length of the pipe and then choose your brush accordingly.	Flexible rods are great for pipeworks with bends, whereas straight handles are ideal for larger diameter straight pipework.	Don't forget to clean the external tops and around pipework in your plant also, which are often overlooked.

Exterior Pipe Brush, Stiff Bristle

Product code: 28/53743
See page 37.

Effectively clean the outer surfaces of overhead pipes and ducting with this Pipe Exterior Brush. Can be used with all Vikan standard and telescopic handles.

 Wells

Mopping Systems & Accessories – Colour Coded

NEW VIKAN MICROFIBRE SOCKET MOP

- ✓ **Improved results** – Provides the benefits of microfibre mopping with the functionality of a traditional socket mop
- ✓ **Cost Effective** – Can be laundered up to 50 times
- ✓ **Versatile** – Can also be used dry. Microfibre generates static electricity, so, both dirt and dust will be attracted to the mop when used without water.

Microfibre Socket Mop — A versatile mop that can be used both wet and dry.

Fantastic performance in a variety of sectors such as food and beverage, food retail, general manufacturing and facilities management.

NEW

Product Code:	28/3700 + colour
Weight:	200gm
Materials:	100% Polyester (100% Microfibre)

** See page 43 for more microfibre mops.*

White Yarn Enduro Socket Mop

High durable yarn for high absorbency performance and long life. Suitable all heavy duty mopping.

White Yarn Enduro Socket Mop Taped

Round skirt design for best floor coverage with roped ends to reduce fray and linting. Suitable all heavy duty mopping on smooth to semi-smooth surfaces.

White Yarn Enduro Socket Mop Round

Round skirt for maximum floor coverage and looped fibres to minimise tangling and linting. 100g microfibre yarn for use with or without chemicals.

Ergonomic Shovels, Forks & Rakes

ERGONOMIC DESIGN

Vikan's ergonomic food grade shovels make light work of tough jobs. Fully reinforced with an ergonomic bend, Vikan shovels reduce the need to bend over by approximately 20cm, decreasing the risk of a potential back injury.

Wells

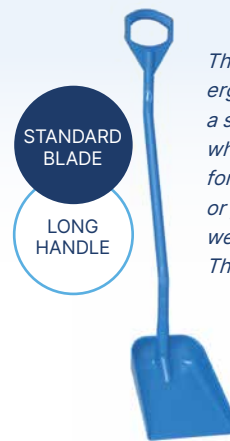

Ergonomic Shovels (For All Applications)

LARGE
BLADE

LONG
HANDLE

Vikan's unique ergonomic shaft reduces back bend by 20cm when removing soil or "product" from floor level. Long handle and large blade move a lot of soil & "product" very efficiently.

STANDARD
BLADE

LONG
HANDLE

The same Vikan ergonomic shaft, with a standard blade size which may be better for removing soils or product with high weight for volume. The choice is yours!

Scoops, Jugs & Buckets

 Video

Vikan's New Ergonomic Scoop, 2 Litre

Product code: 28/5671 + colour.
See Page 55.

Scoop up any dry or moist food ingredients with Vikan's ergonomically designed hand scoop. The perfectly balanced grip protects against strains, while a flat bottom keeps the scoop from rolling over on tables.

Vikan's New, Measuring Jug, 2 Litre

Product code: 28/6000 + colour.
See Page 55.

Fill, measure and pour more accurately with this cleverly designed jug. Easy-to-read transparent scales on each side let you choose your unit of measurement (millilitres, UK fluid ounces and US fluid ounces), the elongated spout and optimised handle ensure easy, precise pouring, and the wide bottom ensures stability and hygienic cleaning.

Vikan 20 Litre Bucket

Product code: 28/5692 + colour.
See Page 57.

An ideal station for mixing ingredients that are stored in 20L or smaller Vikan buckets. Perfect for solid or liquid ingredients, this station is large enough to meet all your mixing needs, yet small enough to lift and transport. A bottom handle and a rounded rim and lip also allow for ergonomic, no-spill lifting and pouring. Interior contains durable beveled measurements.

Video

The World's Best Bucket

The Vikan bucket is so full of functional benefits that it is the perfect choice for the food and beverage industry. The unique design not only makes it look different - it also delivers a combination of food safety and user-friendliness.

Durable bevelled measurements for accuracy.

Click-On-Lid helps avoid foreign object contamination.

Heightened rim on lid allows for safe stacking of buckets.

Stainless steel handle fastened from inside to prevent catching on clothing.

Drip free spout allows for safe pouring.

Hygienic hand grip on rear of bucket.

Durable wear rim on base of bucket for long life.

Secondary Colour Coding extends your colour options

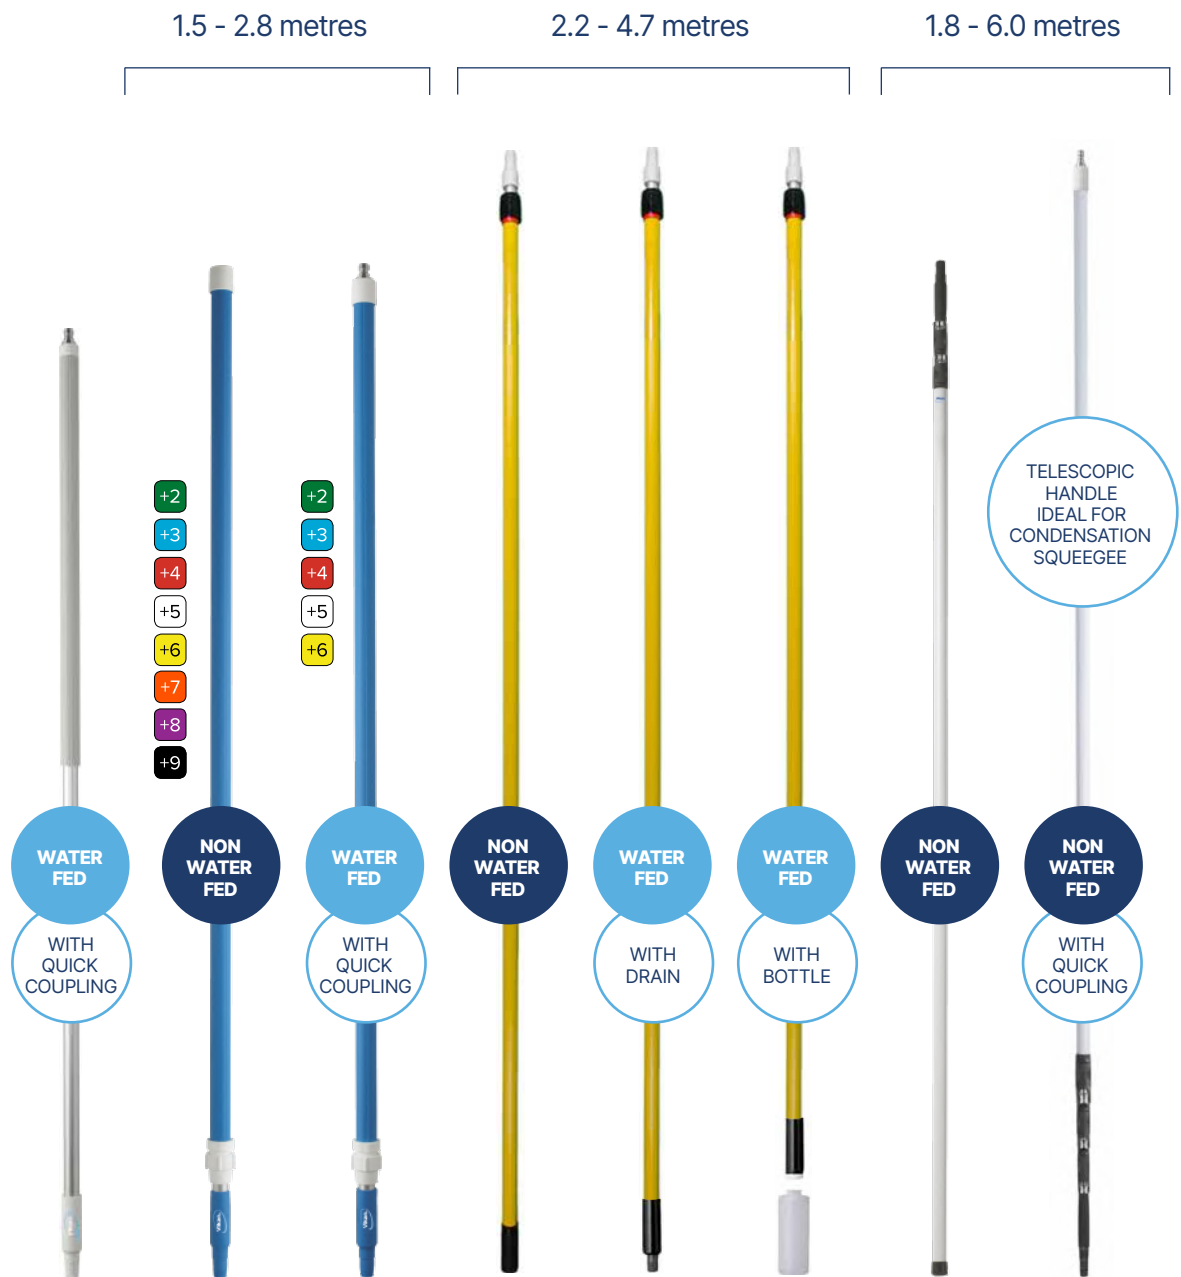

At times, secondary colour coding may be required in your facility. If so, consider Vikan's food grade silicone bands.

- Ø26 mm bands fit brush, broom and squeegee handles.
- Ø40 mm bands fit shovels and vacuum cleaner nozzles.

*Tight fit prevents water
or foreign matter getting
under band.*

Water Guns & Sprayers

HEAVY DUTY

The Trigger Operated Water Gun is ideal for cold water flushing and cleaning. An adjustable nozzle allows for focused jet or full spread. Features a steplessly variable water supply and a trigger equipped with a closing and opening device and a 1/2" clutch housing connection.

	Heavy Duty Water Gun with Trigger Guard	Trigger Operated Water Gun
Product Code:	55/RB65+	28/93229

The Trigger Operated Heavy Duty Water Gun (28/9324+) is suitable for cleaning floors and machinery, and for rinsing off work surfaces and walls after chemical foaming. Determine the jet pattern by squeezing the rubber insulated trigger. Adjust the water jet with a screw at the end of the gun. An arrow on the gun shows the water spray direction.

The Vikan "Combi Water Gun" (55/93209) is a replacement piece for the Foaming Set (55/9305+).

SPRAY NOZZLE
55/9350
SEE BELOW

The Vikan "Watergun for Foam Sprayer" (55/93239) is a replacement piece for the Foaming Set (55/9303+). A rubber coating ensures a good grip during use, even in wet conditions. The foaming gun has a 1/2" nozzle that can connect to a 1/2" Q coupling. The front of the foaming gun can be connected to the rinsing nozzles, 55/9350, 55/9352, and 55/9354. Never allow chemicals to flow directly through the foaming gun.

Spray Nozzles & Water Gun Extensions

Intended for rinsing surfaces and equipment after foam cleaning, this small-nozzle plastic jet spray produces a powerful stream that can be angled 15 degrees. Fits Vikan water guns 55/93209 and 55/93239.

Wells Bespoke 5S Shadow Board solutions provide a clean, instantly recognisable visual management system that dramatically improves workplace safety, organisation and productivity — while actively reducing the risk of cross-contamination.

Wall Mounted 5S Shadow Boards

Fixed directly to your wall, there is no mistaking what tool is to be used for the task at hand. Hygienic and washable, all boards are custom-designed for you.

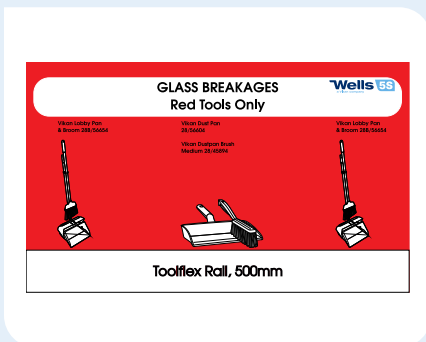

Mobile 5S Shadow Boards & Trolleys

Take your 5s shadow board with you with this mobile unit. Sturdy stainless steel frame with custom designed shadow board inlay. Push-pull handle and heavy duty castors with brakes.

Floor Mounted (free standing) 5S Shadow Boards

Stainless steel mounting legs that can hold shadow boards up to 1200mm wide. Ideal when you have limited wall space, or where there are large, open expanses that require a permanent station.

Location Boards Wells 5S

Space-saving location boards offer a neat and minimalist approach to 5S storage and signage. Ideal for mounting on cages, guard rails, or walls and available in any size you need. Sizes range from 300mm up to 2400mm wide and are fully customised with clear graphics and your text and designed to work with various tool holder systems.

Stainless Steel Location Boards Wells 5S

Heavy-duty, durable, hygienic, and space-saving with a sleek off-the-wall design. Perfect for 5S storage and signage, they mount easily on cages, guard rails, walls, or tool holder systems. Made from high-grade stainless steel for strength and cleanliness.

Vikan HyGo™ Mobile Cleaning Station

Vikan's HyGo is the food and beverage industry's first mobile cleaning station to combine hygiene, efficiency, and manoeuvrability in a purpose-built solution. Beyond elevating cleaning efforts, HyGo also conquers space challenges, lost equipment, and wasted time. HyGo easily navigates tight spaces like doorways with its narrow frame and 360-degree wheels.

Vikan Site Survey Tool

State-of-the-Art Software for Optimal Hygiene Assessments

The Vikan Site Survey Tool is advanced, industry leading software used exclusively by Wells to deliver precise, high impact hygiene site surveys. This powerful digital platform enables Wells experts to perform structured, data driven assessments of your entire hygiene operation, especially in food & beverage and other hygiene critical environments.

Key advantages delivered through a Wells Vikan Site Survey:

- > **Colour coding system** - Does your system and cleaning tool inventory really support your risk management targets?
- > **Regulatory compliance** - Make sure your tools meet all applicable standards and regulatory requirements..
- > **Gaps and optimisations** - Identify missing tools, and improve maintenance and usage practices.
- > **Better tools for the job?** - Is there a better tool available for the job at hand?
- > **Cleaning tool storage** - Protect your tools and improve hygiene through proper tool storage.

Workplace Site Survey

Wells highly experienced team members can help you identify current and potential hygiene risks at your workplace and provide suitable cost effective solutions.

A Wells Site Survey is a great way to improve the certainty of passing – and in fact to move beyond just passing audits to getting ahead of the field as a hygiene leader. A Site Survey involves a thorough inspection of your plant with a view to identifying and solving hygiene problems before the auditors find them.

What we check for

A Wells Site Survey is a comprehensive review of your entire hygiene operations.

Colour coding system

Do your system and cleaning tool inventory really support your risk management targets?

Regulatory compliance

Make sure your tools meet all applicable standards and regulatory requirements.

Gaps and optimisations

Identify missing tools, and improve maintenance and usage practices.

Better tools for the job?

Is there a better tool available for the job at hand?

Cleaning and tool storage

How to clean your tools and improve hygiene through proper tool storage.

Schedule your Complimentary Site Survey today

8 great reasons why you should schedule a Wells Site Survey today:

1. Improve and standardise your hygiene setup
2. Get a complete overview of your cleaning tools
3. Implement Wells 5S Shadow Boards and storage systems to keep your tool programme organised and safe.
4. Implement a colour coding plan or update your existing one
5. Prepare more effectively for audits
6. Rationalise your cleaning tool deployment
7. Solve specific cleaning challenges
8. Move hygiene further up the agenda at your plant.

Apply Online

If you have a factory audit scheduled for the near future, you'll naturally want to satisfy auditors and earn a stamp of approval for your facility.

To book your complimentary site survey please complete and submit the form on our website, or call 09 263 9332 (NZ).

wrdwells.com/workplace-site-survey
