

# ORIGINS

**Treat Your Water. Take Care of Your Health.**

## C150

Homes with low pH levels, or acidic water can be at risk of corrosive water problems. Acidic water conditions are often the cause of contaminants being leached from pipes such as lead, iron, manganese, zinc, or copper. Guard against these problems making their way into your home and drinking water with the C150 pH Neutralizer.

## FEATURES

- Metered controls ensure the reduction of wastewater
- Digital control valve with LED display offers operational flexibility
- Ceramic core technology for smooth, trouble-free valve operation

## BENEFITS

- Raises the pH an alkalinity of the water making it more "plumbing friendly"
- Fully automatic, care-free operation
- User friendly controller programming
- Robust construction ensures that the C150 pH Neutralizer need only be inspected once a year

## SPECIFICATIONS

<b>Product Information</b>	00733; Model: C150
<b>Media Tank</b>	10" H x 54" W (25.4 cm x 137.2 cm) Access for ease of media service
<b>Service Flow Rate</b>	Up to 10 GPM (variability subject to specific conditions)
<b>Backwash Flow Rate</b>	5 GPM
<b>Plumbing Connections</b>	1" MNPT; ½" drain
<b>Operating Pressure</b>	20 psi – 1205 psi
<b>Operating Temperature</b>	34°F - 110°F (1.1 °C – 43.3 °C)

Exclusive ceramic core valve by AerUS Origins™
