

ORIGINS

Treat Your Water. Take Care of Your Health.

F100

As one of the most popular, and effective forms of water treatment, activated carbon serves to treat a wide range of water issues. With the ability to easily dechlorinate the water as well as neutralize objectionable tastes and odors, the Model F100 Whole-house Filter is a remarkable value. Using no electricity, or generating wastewater, this hands-free system offers years of maintenance free operation.

FEATURES

- Fully ported inlet/outlet valve requires no electricity with no moving parts to wear out
- Accommodates any type of plumbing
- No backwash needed, completely eliminates wastewater

BENEFITS

- Chlorine free, "polished" water from every faucet in your home
- Reduction of objectionable smells from odor causing organics
- Better tasting water, coffee, tea, and other beverages made from tap water
- No maintenance upkeep, or expendables to buy
