

Dear family:

Hello, my name is Diego, I am 14 years old and I live in Puebla, Mexico.

I live with my parents and my younger brother, my hobbies are playing sports, listening to music, exercising and playing with my brother.

I like to do any sport and try to excel in it, the sports I usually do or practice are football (soccer), basketball, paddle tennis, tennis, golf and pike ball. I play soccer, basketball and golf regularly as a hobby, but the sport I play is paddle tennis, I like to play it because it is a game that requires teaming up with another person and it is very fun for me.

I am a little shy and serious, but I like to meet new people and make many friends, I think I can adapt to any situation, I am curious, I like to learn new things, I consider myself cautious and I am aware of what I do. I like to achieve the things I set my mind to and if something is difficult for me I fight until I try to achieve it or achieve it.

I like listening to music, because it relaxes me and puts me in a good mood, I listen to a little bit of everything.

I love watching movies and my favorite genres are horror, comedy, action and romance, but my favorites are comedies, one of my favorite actors is Adam Sander.

I like to go out with my family to eat, exercise, I also like to watch a movie at home with them and play board games. I would call this my perfect day.

I like to be organized with my things and I always try to keep my room clean with my brother.

I like to cook and it is also one of my hobbies, I love eating pizza and also helping to make it.

I don't like having problems with anyone, I love peace, nor getting into them. I am very calm and very fun.

I really like animals, especially dogs. I haven't had one of my own because my mom doesn't like them, but I have been taking care of my cousins' or uncles' dogs when they are not in town. I like to take care of them and if I had one, it would be one of my favorite hobbies, because I would love to take care of them, take them for walks, etc.

One of my favorite places is the beach, I love swimming or being in that place, the waves of the sea relax me.

I like going to school and my favorite subjects are mathematics and chemistry, although they are complicated, when I get to solve a problem, it gives me a lot of satisfaction. I also love recess and physical education.

I like Italian food (pizza and pasta) but I love Mexican food more (taquitos).

I want to be an exchange student because I really want to live this experience, learn from the family where I could accept their customs and be a more independent person, I know of some acquaintances who have lived in other countries, that the experience and maturity that they acquire when carrying out the exchange is incredible, I would like to learn a new language, add new experiences in my life, get to know new cultures, customs, places and people as well as get to know myself and know what I am capable of.

Jeg ville elske, at du byder mig velkommen i dit hjem, så jeg kan få disse store oplevelser i mit liv, og jeg tror, det ville få mig til at modnes mere i min vækst som person.

Regards Diego
