

City Air Express

CORPORATE ENVIRONMENTAL POLICY STATEMENT

Objective

City Air Express is committed to preserving the environment and to minimising any adverse impacts associated with our activities. This commitment will require the continuous improvement of our operational methods and working practices, including the adoption of sustainable waste management system.

Policy

We will achieve our Environmental Objectives by:-

1. Operating at all times in accordance with all relevant legislation, approved codes of practice and statutory guidance. Employees are required to adhere to this policy and environmental procedure for their activities within CAE.
2. The implementation and operation of accredited environmental management systems.
3. The education of our workforce to ensure continuing awareness and sensitivity to environmental issues.
4. Engaging with customers, suppliers, contractors and regulatory authorities to encourage a co-operative approach to minimising environmental impact.
5. Investing in clean technologies, fuel-efficient vehicles and constructing sustainable waste improvement.
6. The regular review of the policy and objectives, to take into account the views of our shareholders.
7. Looking at ways to always reduce our carbon footprint.
