

Health Guarantee. Sandra's teacup Puppies/ Kitten Ship Date _____ Balance:

Breed: DOB: Sex: Color Registry: pet only or B Right. Total:

Puppy Price: Deposit To Hold: We Offer Ship By United Pet safe: Transfer
Date:

This dog/cat is guaranteed to be in good health at time of pick up or delivery has been fully vet checked by the breeders own vet. Dog/cat (s) should be seen by your vet for a Health Exam 48 hrs. (2 business days) from date of transfer listed. Must order Nuvet plus vitamin. Failure to do so VOIDS this guarantee as does vet follow up care for said dog/cat. New owner must send breeder a copy of the Health Exam within 7 days of date of transfer of dog/cat or guarantee is void. We do not guarantee dogs/cats against ear mites, worms, fleas, ticks, coccidiosis, giardia, or common parasites. These things are commonly found in pups/kitten and ARE treatable. All these things IF needed are treated by breeder before dog/cat leaves my premises but, getting a 100% clean dog/cat is rare. Any and all vet bills encountered by the new owner once the dog/cat leaves breeders home will be the sole responsibility of the new owner and will NOT be refunded. Should the dog/cat acquire any environmental diseases such as Parvo, Coronavirus, Distemper, & or other disease & dies breeder will not be responsible. Breeders' home is free of such diseases. Seek vet consult on what may be common/current in your area and follow vets care and instructions to ensure the wellbeing of your new pet. Dog/cat is only exchanged/refunded in the first 48 hrs. IF the following are met...1. The dog/cat is said to be unacceptable by a vet within the 48 hrs. of transfer.2. There must be a vet written explanation of such findings/problem.3. Dog must be returned alive and in same condition as when transferred, along with Goody Bag, all paperwork, no haircuts, etc... At new owners expense.4. We have the right to get a second opinion from our vet before refund/exchange.5. NO registration papers will be given for dogs /cat sold with Limited Breeding Registration until proof of spay/neuter certificate from a licensed vet is provided. Puppies will come with limited papers unless you pay Extras for Breeders right. NO EXCEPTIONS !6. We DO NOT exchange/guarantee dog/cat against Hypoglycemia problems. That is the responsibility of the new owner and breeder has explained & provided info on such possible issue.7. Luxation Patella's are also not covered by this guarantee since this has not been 100% proven it is hereditary. Injury, improper handling of legs & jumping on/off furniture are common causes for patella's to go bad and I cannot see what dog is allowed to do in your home.8. Transfer of ownership also voids this guarantee/contract. No guarantee is made as to disposition, size, conformation, & or breeding capability of this dog/cat. Dogs/cats bought as PETS have a 1 years guarantee for life threatening problems. If purchased for breeding & dog has a hereditary problem within one year of transfer, breeder will give what she feels is a reasonable discount on a new dog of equal quality from next litter or when one becomes available. No refunds are given due to hereditary problems. New owner must provide a full vet report of hereditary problem to be discussed with breeders vet before a decision is made for a possible discount. I give 1 years health on genetic problems.
