Leadership Starts at the Top

When you're an innovator, people take notice. And when the first-of-its-kind becomes a top choice in the industry, the industry follows.

The Presidential Series is the original luxury shingle series created to replicate the appearance of hand-split cedar shakes in the form of premium roofing asphalt.

Presidential Shake® TL
Presidential Solaris® Gold
Presidential Shake®

EXECUTIVE STYLE IN A TRUE ORIGINAL

The shade, texture and rustic sculpted edges of each Presidential Series shingle combines to create a sophisticated design that stands far above the rest.

THE LOOK OF WOOD, MINUS THE WORRY

Presidential Series shingles are less costly than cedar shakes, but the benefits don't end there. Unlike wood, these shingles will not rot, and offer the industry's highest fire resistance rating. Plus, with the ultimate in stain protection, CertainTeed's StreakFighter technology uses the power of science to repel algae before it can take hold and spread. StreakFighter's granular blend includes naturally algae-resistant copper to combat the ugly black streaking caused by algae and help your roof maintain its beauty for years to come.

PEACE OF MIND

CertainTeed's lifetime limited asphalt shingle warranty is an industry-best, covering ANY manufacturing defect, including aesthetic defects.

NOTE: Due to limitations of printing reproduction, CertainTeed can not guarantee the identical match of the actual product color to the graphic representations throughout this publication.

You Don't Have to Go White to Go Green

PRESIDENTIAL SOLARIS® GOLD

Luxury Solar Reflective Shingles

Cool roofing has been recognized as one of the easiest and most cost-effective ways to lower a home's energy consumption. But until now, going green meant going white.

Presidential Solaris Gold's cool roofing granule technology puts color where white used to be while still reflecting intense solar heat.

Max Def Weathered Wood

Presidential Solaris Gold shingles are ENERGY STAR qualified roof products that meet both solar reflectance and thermal emissivity requirements.

A COOL EXPLANATION

What are Solar Reflectance and Thermal Emittance?

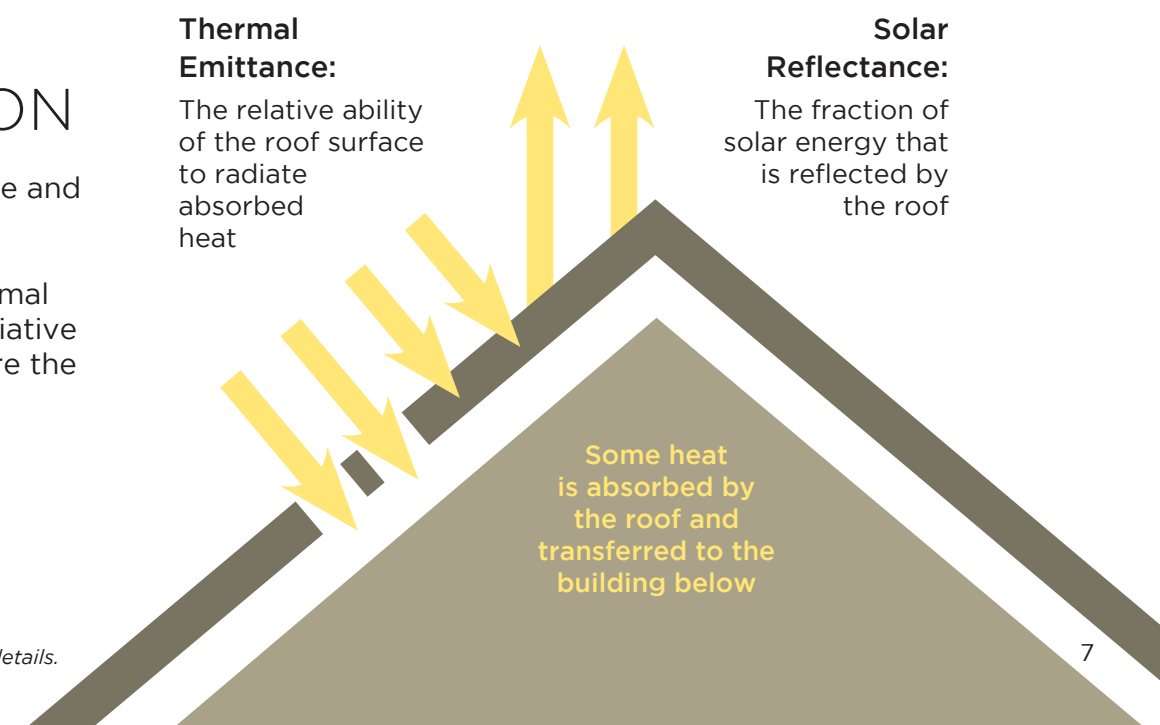

Solar reflectance and thermal emittance are the two radiative properties used to measure the "coolness" of a roof.

Thermal Emittance:

The relative ability of the roof surface to radiate absorbed heat

Solar Reflectance:

The fraction of solar energy that is reflected by the roof

See page 11 for specifications and warranty details.

Strength with Style

PRESIDENTIAL SHAKE® TL

- Triple-layer protection
- 480 lbs. per square
- Distinctive sculpted, rustic look
- Industry-best lifetime limited warranty

PRESIDENTIAL SOLARIS® GOLD

- ENERGY STAR® rated solar reflective technology
- Dual-layer, high performance
- 355 lbs. per square
- Distinctive sculpted, rustic look
- Industry-best lifetime limited warranty

PRESIDENTIAL SHAKE®

- Dual-layer, high performance
- 355 lbs. per square
- Distinctive sculpted, rustic look
- Industry-best lifetime limited warranty

PRESIDENTIAL SHAKE TL

SPECIFICATIONS

- Three-piece laminated fiberglass-based construction for durability
- Distinctive sculpted, rustic look
- 480 lbs. per square

CertainTeed products are tested to ensure the highest quality and comply with the following industry standards:

Fire Resistance:

- UL Class A
- UL certified to meet ASTM D3018 Type 1

Wind Resistance:

- UL certified to meet ASTM D3018 Type 1
- ASTM D3161 Class F

Tear Resistance:

- UL certified to meet ASTM D3462
- CSA standard A123.5

Wind Driven Rain Resistance:

- Miami-Dade Product Control Acceptance: Please reference www.certainteed.com to determine approved products by manufacturing location.

Quality Standards:

- ICC-ES-ESR-1389 & ESR-3537

WARRANTY

- Lifetime limited transferable warranty against manufacturing defects on residential applications
- 50-year limited transferable warranty against manufacturing defects on group-owned or commercial applications
- **STREAK** Fighter 15-year algae-resistance warranty
- 10-year SureStart™ protection
- 15-year 110 MPH wind-resistance warranty
- Wind warranty upgrade to 130 MPH available. CertainTeed starter and CertainTeed hip & ridge required

See actual warranty for specific details and limitations.

PRESIDENTIAL SOLARIS GOLD

SPECIFICATIONS

- Two-piece laminated fiberglass-based construction
- Distinctive sculpted, rustic look
- 355 lbs. per square
- Meets ENERGY STAR requirements

Add a Little Accent to Your Roof

For a finishing touch to cap hips and ridges, use Cedar Crest® - available in colors that complement your Presidential Series shingles. For the best performance, CertainTeed Presidential Starter is required to be used with these shingles.

Color Companion Products for Flat Roof Areas

With CertainTeed Flintlastic® SA, you can coordinate flat roof areas like carports, canopies and porches with your main roof. Flintlastic SA is a self-adhering low slope roofing product available in colors that complement some of the most popular CertainTeed shingles.

Integrity Roof System™

A COMPLETE APPROACH TO LONG LASTING BEAUTY AND PERFORMANCE

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System combines key elements that help ensure you have a well-built roof for long-lasting performance.

It all starts with CertainTeed's broad line of shingles, featuring brilliant color blends, dramatic styles and shadow lines, and the strongest warranties in the industry. The right shingle can mean the difference between an average, everyday look or a beautiful roof that's the talk of the neighborhood.

Shingles are just the beginning - to keep your new roof performing and looking great for years to come it takes a complete CertainTeed Integrity Roof System approach.

1. Waterproofing Underlayment

The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.

2. Water-Resistant Underlayment

Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

3. Starter Shingles

Starter Shingles are the first course of shingles that are installed and designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

4. Shingles

Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

5. Hip & Ridge Caps

Available in numerous profiles, these accessories are used on the roof's hip and ridge lines for a distinctive finishing touch to your new roof.

6. Ventilation

A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.
