

PURCHASE REQUEST: BROTHER PRX1 EMBROIDERY MACHINE

Total Cost: \$8,247.00 including delivery and setup

Vendor: Singer Factory Distributor, Chicago

Features:

- “Free Arm Design”
 - This means patrons can embroidery hats, sleeves, or backpacks! These are all popular items and they are difficult or impossible to embroider on the current machine.
- Front-Loading Bobbin
 - This means some components of the machine are easier to access. Easier access means it is easier to troubleshoot, clean, and thread.
- Larger Embroidery Area
 - This means patrons can embroider a wider variety of projects and designs.
- Larger Screen
 - This makes designing and setting up the machine is faster and easier for us all.
- Compatible with Current Machine
 - This means patrons can still use their old design files if they want!
 - This means patrons and staff don’t need to learn a whole new system.
 - This means we can use the same thread and stabilizer as the current machine.

Summary:

1. Easier to use. This embroidery machine makes all the hardest parts of embroidery easier for our patrons and our staff.
2. Minimal disruption. This machine is similar to the current machine and easier to use, so the transition will be smooth.
3. More happy patrons. This embroidery machine allows us to say “yes” to more projects.

CURRENT MACHINE: BROTHER NQ1700E

Age: Originally purchased in 2021. Has been replaced twice due to wear and tear.

Price: \$2,400

Usage: 300+ reservations annually. Among most popular equipment.

Summary:

The current machine has served us well but is showing its age. Weekly cleanings keep the machine in good working order.

Makery staff and patrons are running into the current machine’s limitations. Patrons frequently ask about embroidering items that this machine is not designed for. These items include baseball caps, shirt sleeves, socks, collars, bags, and backpacks. We’ve found clever solutions to make some of these project work, but the failure rate is higher than other projects.
