From *Historic Homes of Peacham*:

“The church belfry and spire are visible from the surrounding hills and valleys, and remains to this day the dominant elements in the overall visual landscape of the village.”

Many beautiful steeples in many churches across America are lighted every night in memory of a loved one. It is a time-honored tradition in churches who understand the importance of lighting up the darkness with a beautiful symbol of light. A program here at the Peacham Church enables us to light our beloved steeple in memory of one who has lighted our life or to honor someone special. Each Sunday morning in our worship bulletin we will indicate the names of those in whose memory the steeple is lighted. A suggested contribution of \$25.00 helps with the cost of lighting the steeple. Of course, any gift large or small is welcome from anyone. Just leave this card on the table in the back of the Church.

Thank you.

Date of lighting: _____
