

TT4 SERIES

TT4.80 | TT4.90

NEW HOLLAND TT4: BUILT FOR YOU, POWERED BY INNOVATION

The all-new TT4 is designed and developed around the real needs of farmers. With robust performance, operator-focused comfort and smart features, it delivers the perfect balance of power, efficiency, and control - giving you the edge in every field.

POWER AND PRODUCTIVITY

Characterized by sturdy design and functional layout, ensuring reliability and durability, the new TT4 thrives on being pushed to the limit. The new TT4 engines offer more than just muscle. They set the highest standards for both dynamic performance and fuel economy, thanks to FPT Industrial.

VERSATILITY

No two farms are alike, and that is why the TT4 has been engineered to offer farmers ultimate versatility. Featuring 2.5 tons maximum lift capacity, up to 60LPM hydraulic flow and 10 new transmission options tailored for every farming operation, the new TT4 offers bigger attitude to pack more into every working day.

ABSOLUTE DRIVING PLEASURE

Spending long hours in the field comes easy with the TT4. Offering well-thought-out comfort and space, featuring a true flat deck operating platform, steering column mounted shuttling and ergonomic controls, ensuring you work in comfort and keep alert for the job at hand.

ENGINEERED TO REDUCE COST

The TT4 range are simple to operate, easy to maintain and built to go the distance, offering maximum uptime and reduced maintenance cost, putting money back in your pocket.

NEW HOLLAND TT4: 360°

TT4 tractors are designed to spend more time working in the fields and less time in the shop. For routine maintenance, all service points are readily accessible from ground level. From front to back, you will find easy to maintain exceptional engineering requiring low maintenance, the key to lifelong durability.

The air filter is easy to check, clean or replace with no need for tools.

Single piece, lockable bonnet opens wide for full servicing access.

Refill the lockable 60 litre fuel tank from ground level.

The cooling package slides out for simple and efficient cleaning.

Engine and hydraulic oil are checked without opening the bonnet for faster checking and simpler servicing.

THE MOST COMFORTABLE PLACE TO BE

DESIGNED WITH THE OPERATOR IN MIND

The operator area has been completely redesigned, offering a true flat deck operating platform, dash mounted shuttle lever, and well-thought-out comfort & space, perfect for those long days in the field.

CHOOSE BETWEEN THE MECHANICAL SHUTTLE OR POWERSHUTTLE

MECHANICAL SHUTTLE

Located on the steering column conveniently placed shuttle lever allows you to quickly and easily switch between forward and reverse. Its particularly handy when performing tasks that require repetitive motions like front loader work.

POWERSHUTTLE

You do not have to depress foot clutch pedal to change directions, the clutch pack is automatically activated by the hand operated shift lever. The Power shuttle shift makes forward and reverse maneuvers smooth and quick. clutch less operation helps increased productivity especially while using loaders.

EASY ACCESS

Low mounting steps offer easy access.

The new TT4 features a flat deck platform with suspended pedals, designed to provide maximum operator comfort with spacious leg room and easy entry/exit.

- Levers and controls are ergonomically located for intuitive operation, increased productivity and reduced fatigue.

CUTTING EDGE STYLE

The TT4 features New Holland's distinctive eye – catching styling. The hallmark design, with rounded hood and fenders, give the operator perfect visibility on all sides of the tractor and a clear view of the implements and at the same time looks great.

ROPS: YOUR SAFETY PARTNER

Add a canopy for additional protection & comfort in those sunny days. Additionally the Roll Over Protection Structure is certified to give you maximum peace of mind.

COMFORTABLE SEAT

The mechanical suspension seat is mounted on an inclined base, to suit any size operator.
