

ADDENDUM NO. 1

ENERGY EXPRESS PROJECT

Battery Energy Storage Equipment and 20-Year Long-Term Service Agreement

Item	Details
Solicitation	7SPC RFP 2026 09 01
Original RFP release	September 1, 2026
Addendum issue date	September 2, 2026

This Addendum No. 1 is incorporated into and modifies the Request for Proposals. If this Addendum conflicts with the RFP or another procurement document, this Addendum controls.

1. Notice of Intent to Bid

Section 2.1, Communications, is supplemented as follows: Each prospective Bidder considering a Category A proposal, a Category B response, or both is requested to submit a nonbinding Notice of Intent to Bid by email to EEP-BESS-RFP@7SPC.com no later than **September 11, 2026, at 5:00 PM Eastern Time**.

Use the following subject line:

7SPC RFP 2026 09 01 | Energy Express BESS | [Company Name] | Notice of Intent to Bid

The email should provide:

- Bidder's full legal company name.
- Primary procurement contact, title, email address, and telephone number.
- Current intent to respond: Yes, No, or Undecided.
- Intended response: Category A, Category B, or both.
- Confirmation that the contact is authorized to receive procurement communications for the Bidder.

The notice is requested solely for administrative and communication purposes. It is nonbinding, may be updated or withdrawn by email, and is not a prerequisite to submitting a proposal or response. Failure to submit a notice will not make an otherwise responsive submission ineligible.

2. Procurement Communications and Website

Seven States may use the Notice of Intent contact list to send courtesy notifications of published questions and answers, addenda, schedule changes, and other procurement communications. The Seven States Procurement page remains the controlling source for all RFP documents and updates. Each Bidder remains responsible for monitoring that page. Failure to receive an email notification does not extend a deadline or excuse compliance with an addendum.
