Our next adventure.

Where the forest is the destination.

Just two hours from Mexico City, in the spectacular pueblo mágico of Valle de Bravo, Hotel RODAVENTO redefines hospitality in the heart of nature.

Set across 15 hectares of private forest with its own lake, the hotel invites you to disconnect from the fast pace of daily life to enjoy memorable experiences of wellness, adventure, gastronomy, and rest.

Instead of simply observing nature, here, you become a part of it.

Designed by Federico Gómez Crespo and Waldemar Franco, RODAVENTO was built to blend seamlessly into the landscape rather than impose upon it.

Every building, path, and terrace is in constant dialogue with the forest, creating an experience where architecture, nature, and hospitality coexist in perfect harmony.

BACALAR

FROM LAKE TO LAGOON

Welcome to Bacalar.

You are invited to be amongst the first to experience our newest destination - RODAVENTO Bacalar.

OUR SNEAK PEEK - OPENING IN JANUARY 2027.

Just 5 rooms in 50 hectares of untouched jungle.

Five private suites immersed in vast, untouched jungle—offering complete freedom, boundless space, and the ultimate expression of RODAVENTO hospitality.

OUR TENTED SUITES

OUR TENT PHILOSOPHY

Completely immersed in nature, our tented suites are exclusively situated in extraordinary settings. Honoring our humble beginnings back in 1993 when we would set up traditional pitch tents by the river in Veracruz, nothing beats sleeping under a blanketed sky of stars and waking up to citrus colored sunrises in this simple yet adventurous fashion.

Some places you discover. This one, you get to begin.

The shore we've chosen in Bacalar has never held a guest — the beds are new, the paths are barely worn, and the first morning here simply hasn't happened yet.

CORPORATE EVENTS

Where big ideas find the space to grow.

- Our corporate programs integrate expeditions, collaborative challenges, and guided dynamics to create experiences with an impact that extends far beyond the stay.
- Adventure becomes a powerful tool to strengthen leadership, trust, communication, and collaboration.
