Headquarters is official: 1762 Temple Avenue, College Park, Georgia 30337!

When I moved to Atlanta, I made a decision: I wasn't going to just rent space in someone else's vision — I was going to build my own. I wanted a building, not a lease. A legacy, not a temporary address. The journey wasn't cute or easy. I found the right space, negotiated with the seller, and by the grace of God and a whole lot of grit, the seller agreed to finance me until I could secure full funding.

Then came the rollercoaster.

Six banks told me no.

Six!

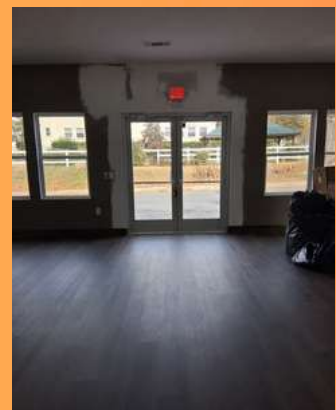

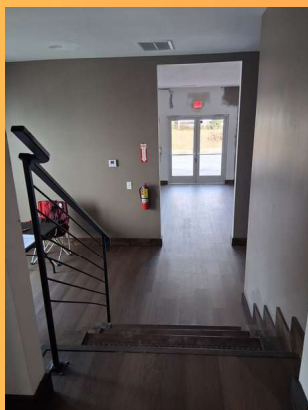

Every denial stung, but I refused to fold. I knew what I was building and who I was building it for. In December (18 months later), the yes finally came through — funding secured to complete the lower level of the building. The top level is already finished and ready for my accounting practice, and we move in January 2026. The lower level will be completed by March 2026 and will become the C-Park Business Hub — a space for entrepreneurs, creators, and small business owners to work, grow, and win together.

This isn't just office space. This is 5000 sq ft business infrastructure.

This is about access, community, profitability, and ownership!

I'm excited to keep serving my clients across the country — and now, if you're in or near Atlanta, you're always welcome to come see us in person. We're just getting started.

Pictures below are the before and after of the rehab of the property.

HELPFUL TAX SEASON TIPS

Watch the mail for year end statements (i.e. W2, 1099, 1099SSA, 1099R) for your employment, pension, annuities, social security, and miscellaneous income for accurate tax preparation. For 2025, the 1099K threshold is \$20,000 in gross income for recipients using pay sources (i.e. cash app, paypal, stripe, venmo, etc.)

Contact your investment representatives to determine if you have gains or losses to report for sales of stock and/or any dividends and interest to report. Includes Bitcoin and other crypto currencies. Forms 1099-B, 1099-DIV, and 1099-INT should be provided at year end.

For business owners, begin to gather receipts and income statements to ensure proper reporting of business income and deductions. Consider mileage, purchases of large assets, self employed healthcare premiums, and SEP contributions, business use of cell phone, and home office deduction (totaling annual home expenses). Please provide a listing of total income and expenses by category. If you require annual accounting for tax preparation, the return will need to be extended and completed after busy season.

For itemized deductions consider mortgage interest, assessed property taxes, contributions (cash and non cash) receipts or letter(s) from donors, and also significant medical expenses (receipts required).

Max out your Traditional IRA contributions (up to \$7,000/\$8,000) by April 15th to take advantage of deductions for contributions in 2025.

Max out Health Savings Accounts (up to \$4,300 single/\$8,550 family) to reduce taxable income
